MAILING ADDRESS R O. BDX ID2D6 TAMPA 9, FLORIDA

The President
The White House
Washington, D. C.

Sir:

On April 27, 1964 I addressed to you a carefully documented letter citing eightyfour (84) times that the United States of America had been insulted around the world. This list of insults covered a period from April, 1950 to April, 1964. My letter to you was sent registered mail but it has never been answered.

I am now listing fifty (50) new incidents where in the last eight months of 1964 the United States of America has been insulted and humiliated in foreign countries. This brings the total list to one hundred thirty-four (134). Of the total one hundred thirty-four (134) insults, the last sixty-seven (67) or one half of the total, have occurred since you became President in November, 1963.

I cannot believe, Mr. President, that you fully appreciate how much damage these insults are doing to the standing and image of our country all over the world. Also, I am sure that you do not realize what disasterous effects it is having in our country and upon your own people. They will lose all respect and pride in their nation and government.

So that you will have complete information I am listing all one hundred thirty-four (134) insults which have occurred from 1950 through 1964. Here is the list.

INSULT NUMBER	DATE & PLACE	NEWS DISPATCH
1	April 8, 1950 Baltic Sea	Plane shot down No survivors
2	Nov. 6, 1951 Sea of Japan	Plane shot down No survivors

Mr. President, I hope you will take a long hard look at this record of insults and evaluate the damage that has been done to our country.

In my April 27, 1964 letter to you I pointed out the necessity for a change in policy and a change in the personnel in our State Department which over the last fifteen years has dictated and controlled our foreign policy with such disasterous results. In any well managed business, institution or government men who fail are eliminated. They are not kept on and on until the business is bankrupt or the institution closed down. How long, Mr. President, does our country have to suffer by the retention of known failures in our State Department and other high places in government? These men have brought our country to the brink of disaster. If they are not removed our country will be lost, our freedom gone and the great society you talk about and plan will never be.

This record of one hundred thirty-four (134) insults to our national honor reflects the character of the men in our government who in past years have made our foreign policy. These men must be replaced by men of courage who will restore our national honor and regain the respect of the people of the world. A nation, Mr. President, is like a man - when his honor is lost and his pride destroyed, there is not much left to build around.

I am sure that the huge vote you received in the recent Presidential election is an indication that the people of this country trust you to restore their national pride and honor. You are the man who can doit.

I earnestly hope that you will receive and carefully read this letter, then take the action that any good American and irate Texan would naturally take to preserve the dignity, pride and honor of his nation. I look forward to an answer at your convenience.

Assuring you of my great respect for you as President of the United States, I am

Sincerely,

Sumter L. Lours

Practically all of these insults, crimes and attacks were either committed by or inspired and directed by the communists. Yet, our government continues to do business with and to have cultural and diplomatic relations with Russia and other communist governments. We hand out our taxpayers' money to them. We give them aid and comfort when they are in trouble and generally treat the communists as equal and honorable people. Does this make any sense? No.
