# Mutiny

This book is about America's covert second War of Independence. This Mother of all Battles is climaxing.

This text contains five main sections. The first segment provides historical context for this revolutionary war.

The second part, 'Marionettes', names the five major agents who control and contest America's subjugation to foreign enemies. The following section examines the tools and tactics employed by these dark actors.

The fourth chapter titled 'Multi-institutional' delves deeper. Analysis looks at how agents embedded in the frontline of America's economy and society act to subordinate her destiny to a globalist Deep State crime cartel.

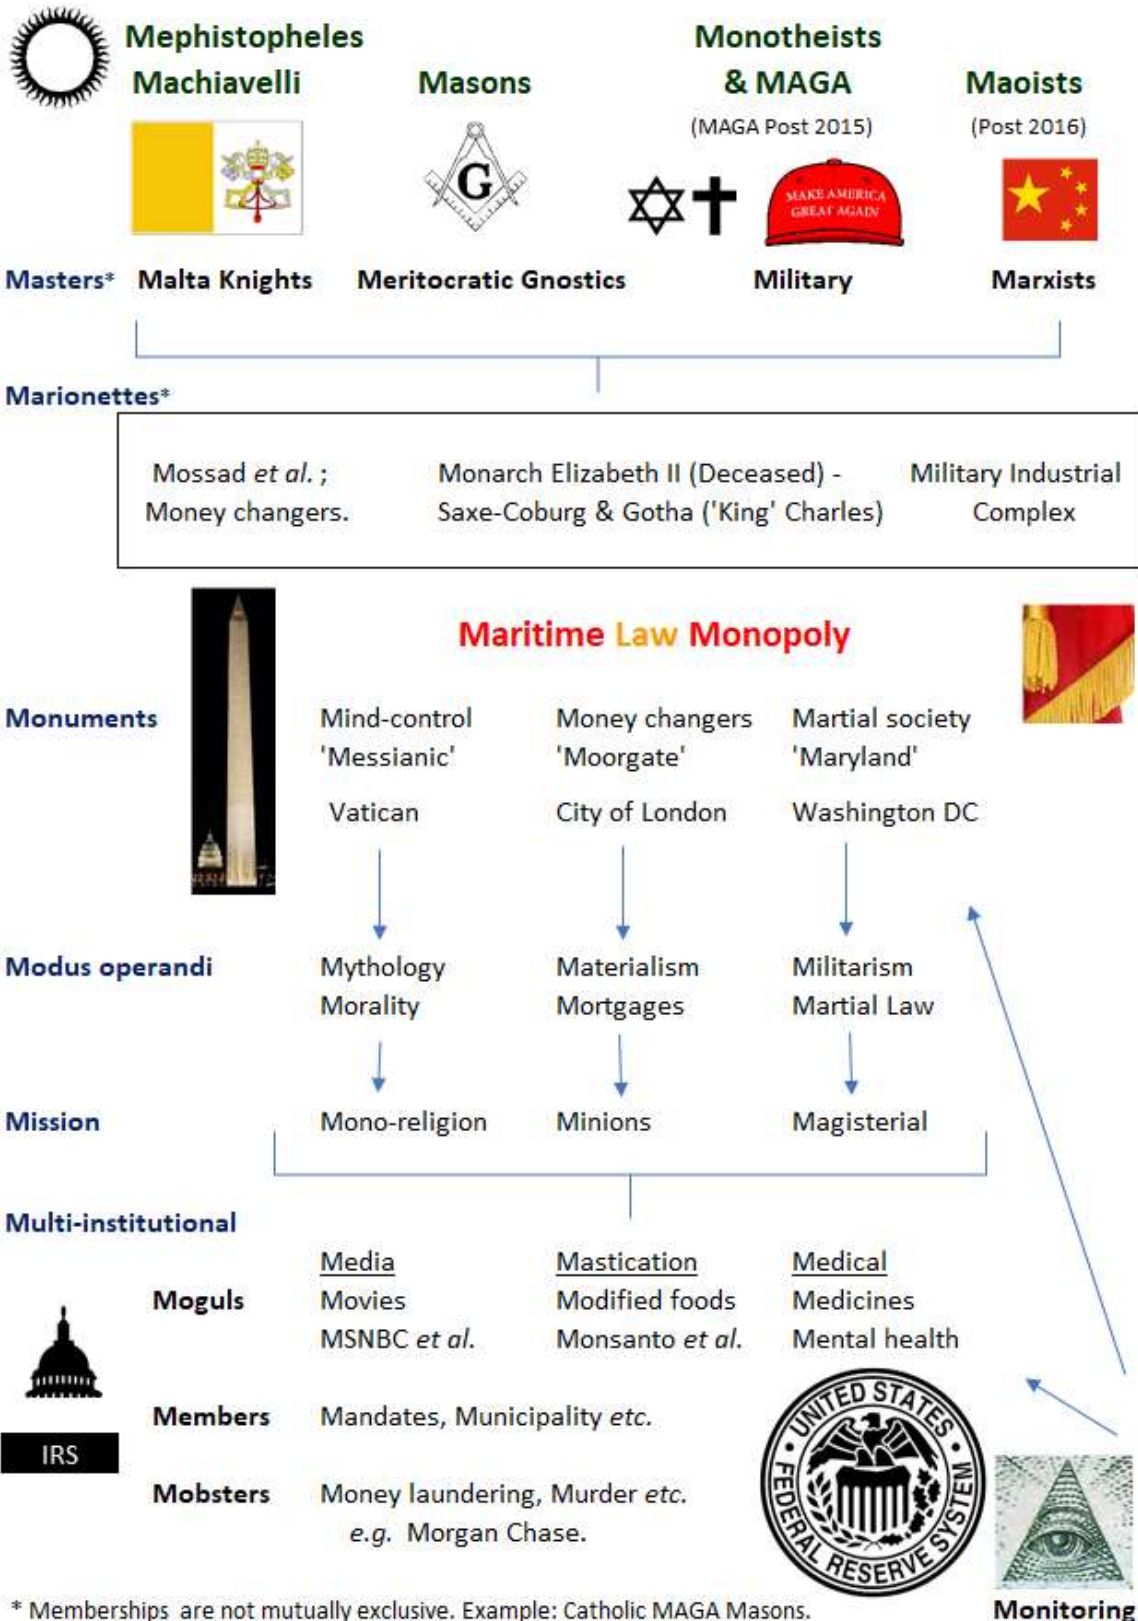

Concluding discussions aims to summarize the present status of America's invisible Second Revolution as at early December 2019.

# Battle to control America, 2019: Major forces\*

## Mirage

The core premise of this book centers around the notion that few things in life that shape war and peace are what they seem on the surface. It is debatable whether this opinion and belief about a smoke and mirrors planet matrix is held by the minority or mainstream.

This free book aims to pull back the curtain and reveal a covert, brutal civil war that has been raging between the brave defenders of America's Constitution and a globalist Deep State crime syndicate since after President Donald Trump assumed office on January 20, 2017.

This text centers around the diagram shown on the prior page. You may find it useful to scrutinize this diagram prior to reading this book. Those who prefer the element of surprise about the thrust and plot of this publication may choose to defer reading this diagram until after they absorb the concluding chapter.

The commanders on both sides have strategically opted to conceal the complex nature of this vicious battle. The stakes are high. Global freedom or planetary enslavement are the end games.

## MANGO

This volume expands on my free book titled “Governor of the Army” published in September 2019. This open-access text focuses on Donald John Trump’s Presidency of the sovereign nation, the United States of America. Analysis in that book compares the first two years of his Presidency to Nostradamus’s famous Quatrain Century III, Quatrain 81.

‘The great shameless, audacious bawler,  
He will be elected governor of the army:  
The boldness of his contention,  
The bridge broken, the city faint from fear.’  
Nostradamus *circa* 1555

The diagram overleaf was used in the prior publication to summarize the thesis of the solo America versus the globalist Deep State crime syndicate in my ‘Nostradamus’ centric book.

This solo America diagram partially overlaps with and expands the key diagram which underpins this book’s thesis on page 2. The diagram overleaf lists the bulk of America’s major military and trade war enemies as at December 2019. It shows sub-divisions of these forces.

This book focuses on the five overlapping apex political groups that aim to control America’s military, economy and society. The highlighted addition of monotheistic institutions and Freemasonry institutions are the main differences between these two diagrams. These two agencies are embedded in the “Drain the Global Swamp” text box in the diagram overleaf.

## Auschwitz

Some Americans may take America's First Constitutional Amendment – the right to free speech for granted. This right has supposedly existed in America's jurisdictions since 1791.

This book's author may freely state that he has no firm opinion about the Holocaust. This event, according to history books, commenced more than thirty years before he was born, or about 50 years before he became an adult. The fact that some European states have enacted laws that ban free speech on this topic is the main factor that causes this author to fearlessly question whether some, most or all mainstream narratives about this event are fake.

### Holocaust denier ordered to visit concentration camps and write about them

Washington Post  
(2013)

Visiting a museum proves nothing. Museum exhibits can be doctored or fabricated outright.

The ability to move towards the truth, via free speech and free writing is an important factor that advances societies. It also sets humanity at-large free. An entity that bans this basic right probably has some high-stakes loss to fear. The Holocaust was a watershed moment in history. For some, it justified or falsified the creation of a controversial new state in the Middle East.

## Miniscule

It is not the intention of this author to debase or insult any nation, people, community or association at-large. Critical analysis in this book focuses exclusively on criminal apex rank executives who dominate governments and corrupt supra-national bodies such as the Red Cross.

This author has lived and worked in most countries named in this book including England, America, Australia, Canada and the Netherlands. The overwhelming majority of citizens in these nations and others are innocent persons guilty of no crime against humanity. An analysis of the literal and historical meaning of words is a repeat theme in this book. The origins of the adjective innocent, *i.e.*, Pope Innocent, reinforce the dominance of Latin institutions over Western culture.

Media often claim that government policies favor the 1%. This author rejects this claim. One percent of America's population is about three and a half million souls. Millions of Americans do not enjoy the wealth and power of thespian public relations front men like Buffet and Bezos (net worth USD 160 billion) and their covert handlers, whose controlled wealth far exceeds this figure.

## Machiavelli

According to orthodox historical narratives, Niccolò di Bernardo dei Machiavelli was an Italian citizen. His career engaged with diplomacy, politics, philosophy and creative writing. He lived from *circa* 1469 to 1527 CE. Machiavelli's main legacy is probably the way that his surname has been equated with various synonyms in contemporary English. The adjective 'Machiavellian' is synonymous with adjectives, in the political context such as treachery, cloak-and-dagger plotting, ruthless conniving, Game of Thrones and power games.

This chapter offers basic introduction into Maritime Law. The diagram overleaf is a one- page summary that overviews the essence of the political economy of Admiralty Law from a Machiavellian perspective. This author recommends the written and spoken works of Jordan Maxwell. Maxwell's open-access (free) work explains Admiralty Law in a way that is accessible to those who have no formal training or knowledge of any official legal system.

## Maritime (Admiralty) Law : Overview

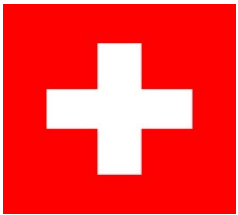

BANK FOR INTERNATIONAL SETTLEMENTS

The Vatican all-male Executive covertly rules over all Western nations by mass deception. This is why Latin vocabulary dominates legal and diplomatic jargon. Please consider these examples: Persona non grata; Pro quid pro; Void ab Initio; Pro bono; Lingua franca, De facto, Mens rea, *et al.*

**Vatican Canon Law  
underpins Maritime Law**

Maritime Law, the Law of the Sea, is based on commercial banking and not natural justice. A judge's 'bench' is Latin for 'bank'. Court's blood money, 'Bail' signifies 'BAAL' worship.

Switzerland and Italy (the surviving Roman Empire) are the Vatican's sister nations. It is no coincidence that the Vatican and Switzerland are the only nations with square flags. Switzerland houses the secretive Bank for International Settlements that controls all central banks. Only Swiss guards are permitted to protect the Pope. No outsiders are trusted. Nazi Germany did not invade Switzerland in World War II as this is the heart of the Nazi Empire.

The Vatican Bank and its Bank for International Settlements control/hoard trillions of dollars (USD). Catholic majority nations are among the most impoverished, diseased nations on this planet. The phony (*i.e.* Phoenician) male Vatican Executive is a slave regime. It does not love Jesus's teachings. Taxes paid by the working poor are used to fund the criminal Bank for International Settlements.

The fake non-Christian Vatican Executive despise America's Constitution because this document is based on the Law of the Land. Land laws empowers people, not crime banks. America's and other Western nation's economies are dominated the Maritime Law. This is clear from the hundreds of references to water and sea in basic business terminologies.

Examples: Sales (sails); merchants; loan sharks; 'shipping' truck freight; cash flow; liquid assets; rigged (rig); drowning in debt.

Exposing Crimes against Humanity committed by the fake murderous Vatican Executive is not an attack against Catholics or their faith. The Catholic community is like virtually all power structures on this planet. The rank-and-file frontline members serve humanity. Apex infiltrators are the arch criminals. Not We the People. This image left depicts true catholic values concerning children: Charity and love.

## Maxwell

The essence of Maxwell's thesis is that a branch of Vatican Canon Law, Maritime Law, covertly controls America's political economy and justice system. Commercial banking law is the common denominator that controls American bodies, businesses and bailiffs.

The use of language in medicine, business, courts and banking centers around water and sea. The dominance of these words is beyond coincidence or historical relic. The table diagram overleaf lists selected examples from these domains of society.

Paradoxically, the covert nature of Admiralty Law hides in plain sight. The Earth's surface is about 70% ocean. Maritime Law effectively operates as the *de facto* body of International Law as it governs all aspects of trade between nations and the movement of human populations. Patriotic Americans should be concerned that America's Constitution seems to be subordinated by a subversive, sadistic foreign power. So long as America's politics and peoples remain subjugated to Roman Law, the Land of the Free remains a cruel smoke and mirrors illusion.

This author strongly recommends that readers consult Jordan Maxwell's radio presentations and lectures available online to appreciate the ancient historical context of the Roman Empire which staged its fake demise and hid inside a walled city in Rome. In its essence, Roman Maritime Law is a sinister occult system whose goal aims to form a Roman fascist One World Government that farms humans as slave labor that serve a Nazi hierarchical government. The inversion of images, numbers and words (spells) are central to this occult system. For example: 666.

## Milking

The 'Internal Revenue Code' is called a 'code' because only the 0.001% thespians like Buffet and his puppet masters have access to the keys that unlock this cryptic mystery. If you can afford to pay the best Tax Attorneys *circa* USD\$5000 per hour to share their knowledge of the Code, you may have a chance of paying no tax. You may even receive government subsidies. The slave matrix system that dominates America's injustice system shamelessly hides in plain sight.

---

Can you think of other uses of the word 'code' in everyday English?

Why is a tie around a man's neck a mandatory dress *code* at most large corporations?

A popular claim among those who analyze geopolitics from a Maritime Law perspective is the claim that state issued birth certificates incorporate babies as corporations under Roman Corporate Law. This is evident from the CAPITALIZATIONS of the given names, surname and middle names on the certificate. Under Roman Law, corporations such as FACEBOOK INC appear in capital letters on the Article of Incorporation issued by the state registry (e.g. UNC, 2013).

This passport specimen issued by the UK Government signifies that way that official documents such as passports, drivers' licenses and bank statements capitalize a person's full name.

According to the theory, national governments, including America's Federal Government, may trade the future labor and taxes paid by its citizens on international markets. Citizens labor may be used to secure loans issued by corrupt institutions such as the International Monetary Fund, World Bank and the Rothchild staffed Bank for International Settlements based in Switzerland.

America's citizens should be concerned with claims made by informed observers that the State Government of California and America's past Federal Administrations (pre-Donald Trump, 2017) sold America's birth registry certificates and California to the Chinese Government to settle its debts. These claims do not seem to appear in official outlets such as the whitehouse.gov website.

There is ample evidence that the mainstream media establishment has aimed to use massive amounts of predictive programming to warn America's citizens to the idea that China may one day purchase American states. This bizarre mock example is one of many such news articles.

## Motherland

Are America's attorneys loyal to America's Constitution? A visible number of informed researchers claim that all American Bar Registered Attorneys are seditious even if they are not aware of their mutiny. Professional bodies that register America's attorneys are called 'Bars'.

THE FLORIDA BAR

floridabar.org

The State Bar of California

calbar.ca.gov

What does Bar mean? Does it refer to a sand bar, consistent with the watery nature of Maritime Law vocabulary? Some commentators claim that it refers to the proper noun 'British Accredited Regency'. This slide visually summarizes those who prescribe to this theory (Thorncock, 2015).

**The Temple London**  
**The BAR**

**Note: BAR, = is British Accreditation Regency; undoubtedly a private stock company, the majority of which is owned by the Bank of England and the "Crown" of the 'the City' of London.)**

**All Bar Association licensed Attorneys must keep the terms of their oath to the Crown Temple in order to be accepted or "called to the Bar" at any of the King's Inns. Their oath, pledge, and terms of allegiance are made to the Crown Temple.**

Deceptions hide in plain sight. When quizzed for an explanation, it is common among to those who claim to deeply understand the question to offer a knee-jerk "That's just a historical thing".

Questioner: If Queen Gotha has no power in Australia, why is her face on every Australian coin?

Pedestrian Law Academic: It's just a historical thing. She's just a figurehead with no power.

## Metaphors

The following three pages offer a few symbolic images that are supported with a credible reference and brief *speculative* analysis. These inclusions may offer an avenue of inquiry for those who have the will to conduct research into Vatican Maritime Law in the West.

At face-value Antifa displays the hallmark traits of a fascist organization that is sponsored by fascist Nazi European royal crime families and other higher powers. Black is the new red. ## Mephistopheles

There is a vast body of public discourses that claim that a global cartel who worship some type of 'dark force' controls and aims to destruct America's economy, landscape, infrastructure and social fabric. Such commentators do not necessarily believe in a dark deity of some kind. They pass comment that certain powerful enemies of America share this belief.

The source of these interpretive observations is likely explained by the fact that America is a Christian majority nation. This selected example from the Book of Chronicles may fall in this category that refers to the notion of a dark deity.

[biblegateway.com/quicksearch/?quicksearch=satan&qv\\_version=NIV](http://biblegateway.com/quicksearch/?quicksearch=satan&qv_version=NIV)

**1 Chronicles  
21:1**

[ *David Counts the Fighting Men* ] **Satan** rose up against Israel and incited David to take a census of Israel.

This article shown below likewise may fall into this category. This text contextualizes the Jesuits and the Vatican with an evil plan to destroy American from within.

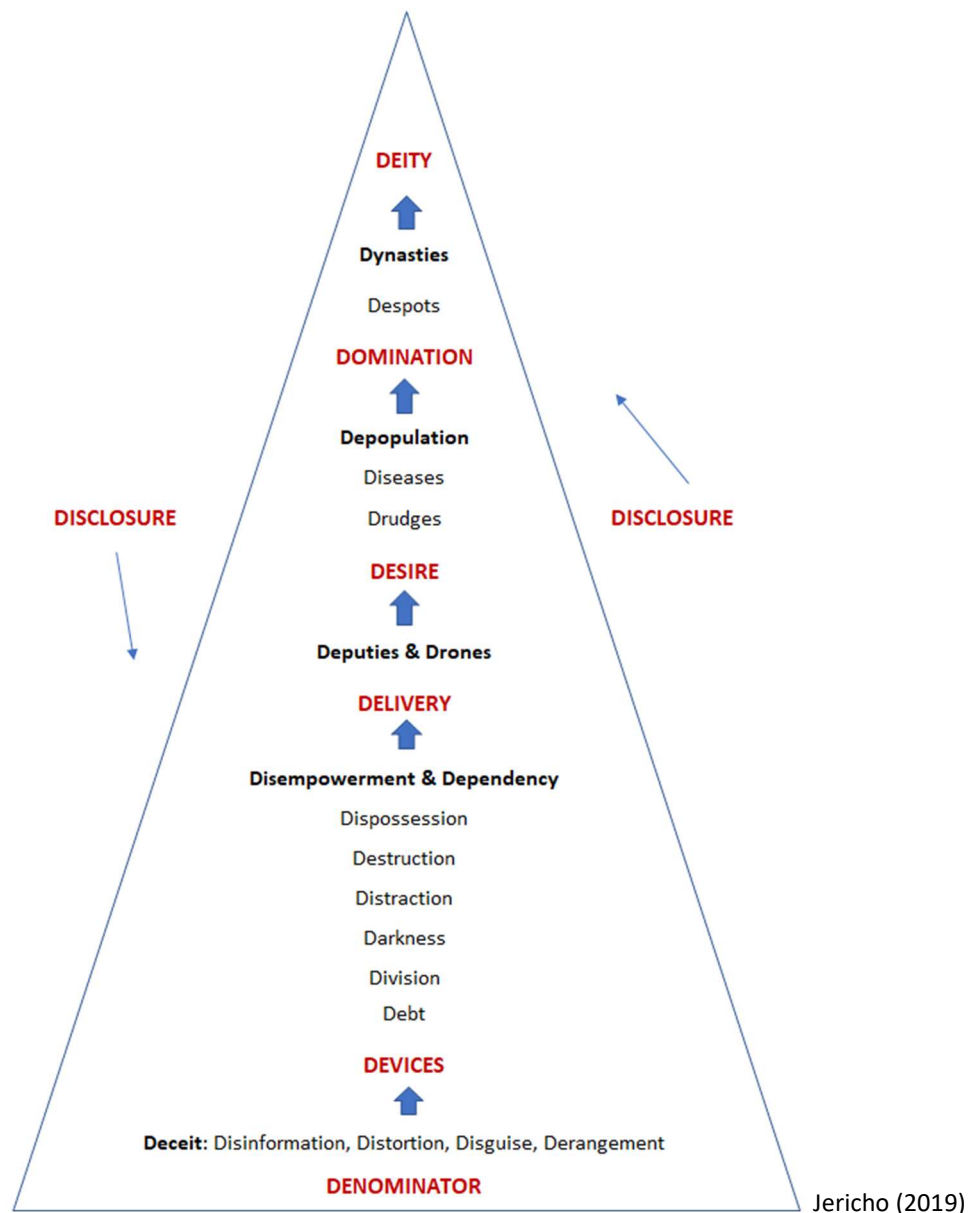

[themillenniumreport.com/2015/12/jesuits-control-the-vatican-and-are-the-real-spiritual-controllers-of-the](http://themillenniumreport.com/2015/12/jesuits-control-the-vatican-and-are-the-real-spiritual-controllers-of-the)

Besides painting a dark picture of the Black Pope in Rome, Bishop Bouffard claims the evil power of the Jesuits extends throughout the world, including solid infiltration of the U.S. government, the Council on Foreign Relations (CFR) and major religious organizations.

Bishop Buffard claims the Jesuits act like the perfect chameleons, taking on the identity of Protestants, Mormons, Baptists and Jews with the intention of bringing about the downfall of America as well as bringing the country under a one world religion based in Jerusalem and under the control of their leader, Lucifer.

# Armageddon

Some commentators theorize that the devious forces that control the global political economy are part of a death cult that orchestrates and celebrates death and suffering of all lifeforms. Perpetual war and environmental destruction are phenomena that are described by historians and social scientists from all walks of life. This author theorizes that a syndicate that control planet Earth conspires to depopulate humanity and enslave the remainder.

## Masons

Offering deep insight into 'the Freemasons' fraternal society is a near-impossible task. The Freemasons are secret society, in the same vein as others such as Skull and Bones at Yale University. Any Mason ranked lower than the 33<sup>rd</sup> Degree level may have zero knowledge about how a Freemasonry Executive works. It is dubious if 33<sup>rd</sup> Degree Masons can speak knowingly about how 'the Freemasons' operates collectively. There is no Grand Lodge of Lodges. It is near-impossible for any outsider or insider to infiltrate the 33<sup>rd</sup> Degree club. To do so as an insider may take decades to graduate from the 32<sup>nd</sup> Degree to the 33<sup>rd</sup> Degree. Some may never be admitted.

Its membership is overwhelmingly mature age white men. This is consistent with the demographics of the founding fathers who signed *America's Declaration of Independence*.

Images below are associated with Freemasonry. This claim is not controversial.

The extent of Freemasonry control over America's social fabric is debatable. Images below and overleaf may offer avenues of inquiry for those who are keen to learn more. Many commentators claim that some or most of America's founding fathers were Masons.

News Pro (2019)

Masonic images are supposedly dominant in Hollywood and political imagery. A somewhat popular theory is that Masons are one of a few apex power structures who possess network resources that may elevate an entertainer or politician into a celebrity role. Masonic stars are servitude puppets who must promote Masonic doctrine. Some of these Masonic actors are moderately talented or vaguely **intelligent**. They are merely born into ranking Masonic families.

Many occult commentators claim that the US Dollar bill offers insight into the concept of the so-called Illuminati. Researchers may draw on the image/reference below to conduct free inquiries.

This intricate, all-important design was not random. The big truths always hide in plain sight.

Beamng.com (2014)

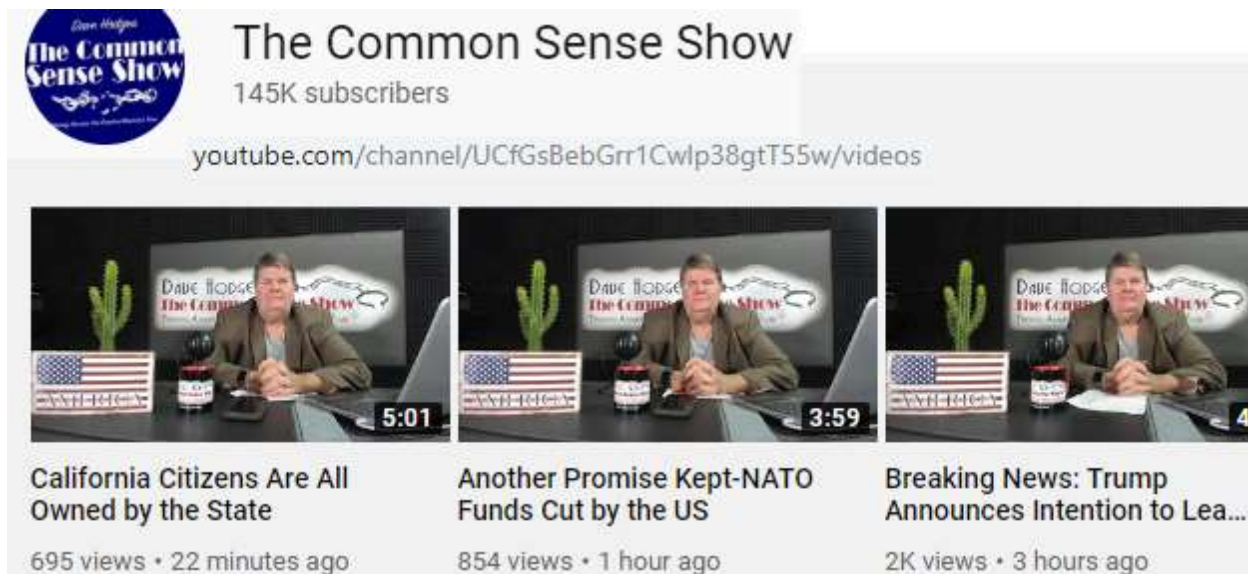

This author speculates that America's founding fathers were skilled Masons (e.g. engineers) who warred to be free from the London/Rome tax-slavery regimes. Over time, this institution was infiltrated via the usual mechanisms: blackmail, bribery and butchery. It is possible that dominant narratives about America's *Declaration of Independence* are a fraud. London faked the War of 1812 and its retreat. This US dollar bill was redesigned in 1935. This date is two years after Britain and Rome bankrupted and collapsed America's economy (1933) and imposed Maritime Law.

## Monotheists

The status of Judeo-Christian values in America's bureaucracy and civil society are a profoundly complex matter. America's First Constitutional Amendment separates religion (including Church) and state. The reality is that virtually all Congressional office bearers and aspirants pay lip service to Christian values, especially deep into an electoral cycle.

Those who do not have a good knowledge of how Christian values and themes shape general day-to-day discussions about civil war and America's external state enemies may consider visiting the Dave Hodges Channel. Dave seems to imagine China as America's arch enemy.

This gentlemanly channel is recommended as a first reference as its focus is not centric to one state, region or Christian denomination. It is politically partisan (red). Those who mostly/exclusively follow mainstream media such as CNN fake news and controlled opposition such as Fox may find many claims made on Dave's channel shocking. Private news channels such as Dave Hodges make no/little effort to reconcile their narratives with mainstream 'fake' news.

## Assyria

Millions of Americans and many millions of others view world affairs that concern war and peace through a Biblical lens. This especially concerns issues that involve the Middle East. Anti-Christian elites who slither in the shadows seem to manipulate this knowledge to suit their devious agenda. For example, ISIS is a notoriously difficult construction to pin down in terms of membership, leadership and objective. Pre 2017, constructions such as Al Qaeda and ISIS suddenly appeared in mainstream fake news media such as CNN as though they are everyday proper nouns.

This webpage extraction below published by the National Association of Evangelicals is an example of a discussion that analyzes current warfare, suffering and mass disorder in the Middle East from a Christian (Evangelical) perspective.

[nae.net/isis-threat-christians/](http://nae.net/isis-threat-christians/)

### Our Biblical Mandate

The overall situation in Iraq and Syria has been characterized by the United Nations as the worst in our modern era. Yet, for the world's two-billion-strong Christian community, it is even more consequential. Paul wrote to the Corinthians at another time when Christians were being beheaded, "If one member of the body suffers; all suffer together."

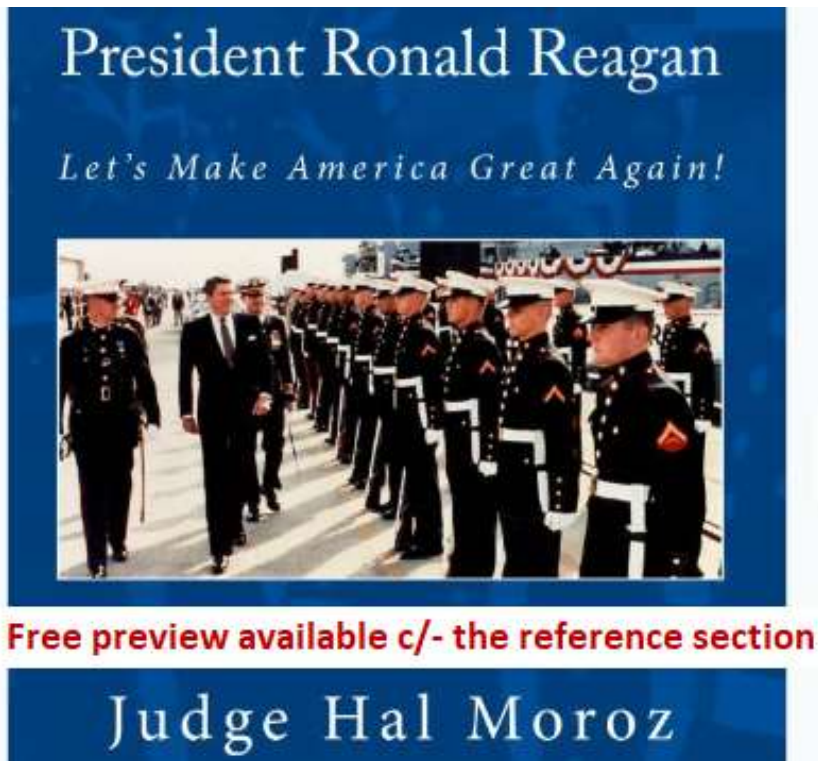

We have an obligation to empathize and raise our voices on behalf of justice and do as King Solomon advised us to do, "rescue those being led away to death." We are to, as Hebrews 13:3 says, "remember those who are in prison as if you were together with them."

We have a biblical mandate to be engaged in this crisis, and — at the very least — we must raise our voices in solidarity and protest.

Please consider visiting this detailed webpage to appreciate this discussion in full context.

## MAGA

The Make America Great Again (MAGA) slogan has Republican roots. Many political commentators credit Ronald Reagan with coining the MAGA phrase.

© Moroz (2013)

For many, the MAGA movement, spearheaded by Donald Trump, is self-explanatory. The word ‘again’ refers to a winding back the clock; *i.e.*, returning America to its heyday of prosperity and higher levels of happiness. Others view the MAGA movement from a profoundly deeper perspective – in the same vein as core themes that recur in this book. The essence of this view is that a globalist, deep state, anti-American crime syndicate has conspired to bankrupt, enslave and annihilate America from within. President Trump is a brave patriot who is leading a patient, covert war against this cartel that is deeply entrenched in apex political and business bodies.

## Alleluia

Many, possibly most people don't associate President Donald Trump with religious piety, let alone any specific denomination of a monotheistic faith. This mindset is understandable. As far as this author can gauge, Donald Trump rarely speaks about his religious beliefs or affiliations.

Donald Trump has publicly stated that he is Protestant and Presbyterian. He also stated during his Presidential campaigns that he is concerned about the ways that quote Christianity is under "siege" globally and within America. These sample videos below confirm these claims.

## Maoists

Relations between Washington and Beijing are probably at an all-time low politically. Most spouts fall into one of two heavily overlapping geopolitical domains: military and commerce.

From an American perspective, The Trump regime rejects Beijing's vast claims to exercise unilateral military control over the South China Sea. This seems fair given that several nations such as Brunei, Malaysia, Vietnam and the Philippines have valid claims to these waters under long established conventions of International Law.

The list of military and commercial disputes between China and America is worthy of a handbook. In its essence, the Trump-Pentagon Administration is concerned about China's fast-growing political and economic dominance in nations that were previously the domains of Western influence. The building of a Chinese port with a 99-years lease in Darwin, Australia is an example.

The underlying concerns of the Trump Administration likely run far deeper than ancient spats over lines in the sand and the price of myrrh. The Pentagon may harbor concern that Beijing has long been plotting to annihilate the social fabric of America from within. The distribution of the super toxic fentanyl from Mainland China is a classic example. If true, this is a sick Act of War.

There is evidence that members of prior administrations and other inside agents have sold out America's interests to China. Such claims mostly exist in alternative, not-for-profit news media.

## AI

American agents who support Beijing's authoritarian regime may be acting within America's laws that promote free trade speech. The proposed rollout of Google Dragonfly in China is an example. Google Dragonfly is a tool that facilitates Chinese Government nano surveillance of its residents. It may censor free speech within China. This open-letter memo published by Google staff expresses concerns that Google's China project is incompatible with America's social values.

To make ethical choices, Googlers need to know what we're building. Right now we don't. So we, the undersigned, are calling for a Code Yellow<sup>1</sup> on Ethics & Transparency at Google.

Our industry has entered a new era of ethical responsibility: the choices we make matter on a global scale. **Yet most of us only learned about project Dragonfly through news reports early August.** Dragonfly is reported to be an effort to provide Search and personalized mobile news to China, in compliance with Chinese government censorship and surveillance requirements. Eight years ago, as Google pulled censored websearch out of China, Sergey Brin explained the decision, saying "in some aspects of [government] policy, particularly with respect to censorship, with respect to surveillance of dissidents, I see some earmarks of totalitarianism." Dragonfly and Google's return to China raise urgent moral and ethical issues, the substance of which we are discussing elsewhere.

Here, we address an underlying structural problem: currently we do not have the information required to make ethically-informed decisions about our work, our projects, and our employment. That the decision to build Dragonfly was made in secret, and progressed even with the AI Principles in place makes clear that the Principles alone are not enough. **We urgently need more transparency, a seat at the table, and a commitment to clear and open processes: Google employees need to know what we're building.**

Time may tell how this saga plays out. Many of the biggest players in Silicon Valley may see more profit in serving the interests of China's massive population than prioritizing American values.

## Mingled

There is inextricable overlap of memberships among certain subscribers of the Vatican Executive, Masons, Maoists, monotheists and the MAGA movement. The essence of this argument is near-universally accepted. For example, the MAGA movement is a broad church, literally. The Republican party does not ban Masons, Catholics or others from purchasing their MAGA merchandise or attending MAGA themed rallies so long as they engage in a lawful manner.

From an American patriots' perspective, the intrigue of the intersection of apex group memberships may arise when there is an inevitable conflict of loyalty. For example, what actions or inactions may a dual citizen (*e.g.* Taiwan-America) take if America and China go to war?

This illustration question is merely hypothetical. It serves to illustrate a more serious question – are there subversive agents acting within America, whose loyalty to another entity trumps (pardon the pun) their otherwise strong loyalty to the United States of America? Such conflicts of interests are inevitable. There are thousands of permutations and combinations. For example, some American born citizens of Irish descent, who are Freemasons, may always remain loyal to America over England solely because of their personal view that Northern Ireland is an occupied territory. However, they will always follow the directions of their Lodge. Some patriotic Brits may temporarily support the actions of America's incumbent Administration merely because they appreciate the Trump Administration's overt, strong pro-Brexit stance. The complexity of the cross alliances that confronts America's incumbent President is near-impossible to comprehend.

## Allegiances

What potential cross-allegiances can you perceive from these individual images, if any?

Can you see any evidence of a hierarchy of loyalties within one or more images?

# Fordham Chinese Business Society

Do you think that any of these loyalty combinations are mutually exclusive:

China, MAGA, Judaism, Christianity, America, Freemasons, Trump, Vatican, US Armed Forces?

If you understand text and image symbols, you may concur that allegiances hide in plain sight.

# Marionettes

## Monarch

The premise of this chapter asserts that no supremely powerful Earthly institution has absolute power over America's military, political economy or society. The Saxe-Coburg & Gotha inbred Dynasty that occupies Buckingham Place in England exerts minimal cultural status over America's households. This curious position is a double-edged sword for this devious crime family.

In contrast to royal Commonwealth nations like Australia and Canada, royal crowns and portraits of the Anglo-Germanic-Nordic Queen Elizabeth II do not appear on America's coins. Americans don't refer to Federal land as 'Crown Land' as they do in Australia, Canada, New Zealand and other Commonwealth slave states. This House has no status in America's powerful Constitution.

There is a body of evidence that suggests that multiple regal families faked their demise to divert attention away from the fact that local inbred bloodlines that accounts for about 0.0001% of the population owns and control the nation. These ploys aim to extend the life of all global dynasties. History shows humanity that citizens eventually rebel, and repel parasitic warmongering royal crime families who rape, pillage and depopulate weaker nations with impunity. Citizens become sick of wage-debt-slavery regimes that tax the poor and fund trillionaire lifestyles of royals.

The demise of the British Royal crime family in America will be accelerated by its low status. It is exceptionally rare to hear Americans say anything about the Saxe-Coburg & Gotha clan. This crime family faked its disappearance from America's spheres of influence. It no longer has body of local brainwashed commoners who care to inquire about it or fight to their deaths for it.

Heavy, perpetual inbreeding between European Royal crime families is a notorious historical fact. Royals marry other aristocratic families to consolidate wealth and power. 'Habsburg Jaw' is a facial deformity that was common among European Royals and Aristocrats during prior centuries.

## Two hundred years of inbreeding among European royals IS to blame for a facial deformity known as the 'Habsburg jaw', scientists claim

The House of Habsburg produced various Austrian and Spanish kings and queens - and they occupied the throne of the Holy Roman Empire from 1438-1740. The generations of intermarriage that secured the family's influence, however, ultimately proved fatal - Charles II of Spain (left) was incapable of producing an heir. The Habsburg jaw - the prominent facial deformity that affected the European royal family of the same name - was the result of 200 years of inbreeding, a study found. King Philip IV of Spain (right) also had the same jawline as did Mariana of Austria (bottom centre) and Emperor Ferdinand II (top centre).

'Habsburg' highlights the Austro-Germanic origins of Berg and Burg ending surnames.

## Germanic

The demise of the German Military Forces at the end of the First and Second World Wars resulted in mainstream global rejection of Nazi military paraphernalia and ideologies. This claim is not controversial. It is extremely rare to see people openly display Nazi symbols and military uniforms in public in any nation or society. So-called Neo Nazi skinhead parades attract much public scorn.

This historical phenomenon about Germanic power structures would provide a logical explanation for why the British-Germanic-Nordic Dynasty that occupies Buckingham Palace fabricated its new phony surname, creating the English sounding 'Windsor' surname.

The Queen

The Royal Family

The Commonwealth

The House of Saxe-Coburg-Gotha as a British dynasty was short-lived. It encompassed the reign of King Edward VII, who reigned for nine years at the beginning of the modern age in the early years of the twentieth century, and the first seven years of his son, King George V, who replaced the German-sounding title with that of Windsor in 1917 during the First World War. The name Saxe-Coburg-Gotha survived in other European monarchies, including the current Belgian Royal Family and the former monarchies of Portugal and Bulgaria.

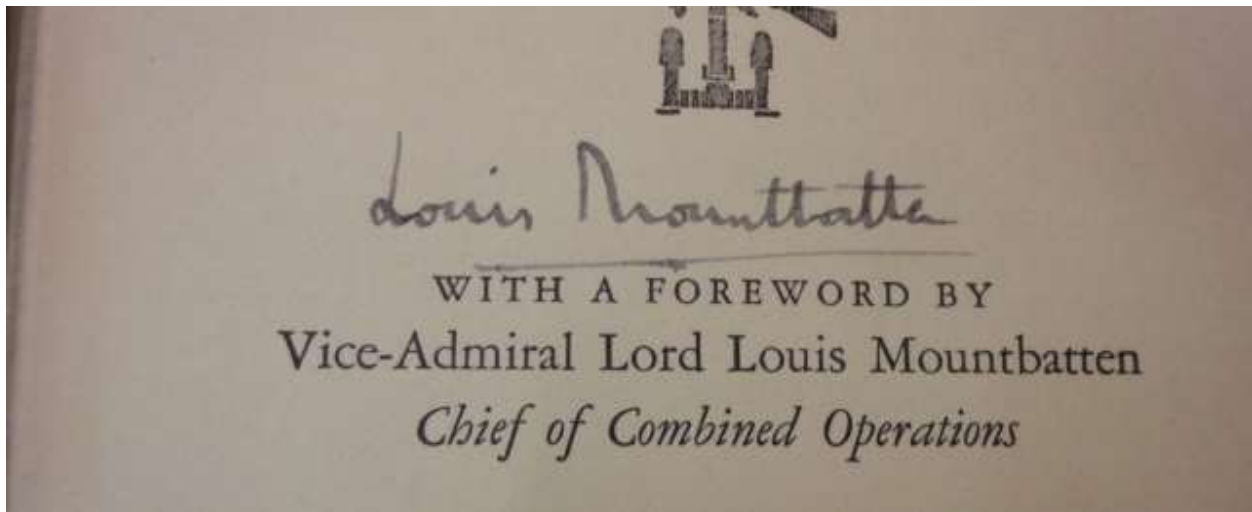

[royal.uk/saxe-coburg-gotha](http://royal.uk/saxe-coburg-gotha)

For consistency and to avoid confusion, this book consistently refers to the Anglo-Germanic-Nordic Dynasty that occupies Buckingham Palace as Saxe-Coburg & Gotha. As shown overleaf, this inbred clan fabricate Anglo surnames out of thin air to suit the occasion and agenda. They are self-exempt from legal requirements to change their name by Deed Poll or the Birth Registry.

## Moneychangers

The Rothschild Germanic banking crime dynasty has broadly divided into two factions: Anglo and French . The surname Rothschild is a German corruption of the name Red Shield (Rotes Schild).

A picture is worth a thousand words. The Saxe-Coburg & Gotha inbred clan is subservient to the Rothschild crime family. The Gotha's rule over a mere 53 Commonwealth nations. The Bank for International Settlements (BIS), staffed by the Rothschilds, rules over the global banking system.

The SWIFT payments system is the BIS's most lucrative product. If you send a few bucks to your loved ones via SWIFT, Western Union or MoneyGram, the Rothschilds cut a slice of the action via manipulated exchange rates and the SWIFT commission charged by your bank. Nice one, BIS.

Jacob Rothschild is the figurehead of the Rothschild crime clan. It is most likely that he was assassinated by a Vietnamese pilot above the Rothschild Buckinghamshire Palace Estate in 2017.

This assassination may have been payback for the millions of Vietnamese who were murdered, maimed and displaced by the Rothschild funded Vietnam War (*i.e.* invasion). The natural death and assassination of apex mafia crime bosses is rarely reported by mainstream media for various reasons. A prime reason is that the death of an elite crime boss is the death of a brand that took decades to build. Such a public announcement may trigger the rapid collapse of an Empire. Since November 2017, Jacob Rothschild has not been seen in public. Stale Getty Images stock photos and brief computer-generated moving images keep him alive in digital fake news stories.

## GDF

This intriguing YouTube channel may offer an avenue of inquiry for readers who are keen to explore the covert bizarre world of behind-the-curtain multi trillion dollars secret financial deals.

This channel's spokeswoman, Karen Hudes, a Yale Law Graduate, claims to speak on behalf of an entity that has authority to control a multitrillion dollars Global Debt Facility. This money was supposedly deposited with the International Monetary Fund in prior years to fund a global financial rest and economic development to eradicate poverty. This author does not endorse this channel. When navigating alternative financial media, I suggest that readers always keep an open mind. Little of what we read in the mainstream fake news media is true with concerns to the most critical issues of global banking and politics. The same is true in some alternative media, including those that claim to speak on behalf of the disempowered masses like you and I.

Black hats in white hats. Disinformation skills. Poison Ivy.

## Mossad

The Israeli Mossad is probably no different to virtually all apex power structures on this planet. Only a small handful of executives, and their external controllers, have a full overview of the agency's objective. I don't know this for sure. I've never worked for the Mossad. Honest.

The Mossad is comparable to intelligence agencies such as the CIA, MI6 and KGB. This agency oversees the most critical life-and-death stakes missions that concern national security of the nations that it represents. Yes, plural. In other words, it outranks the Israeli Defense Forces.

Over the next decade, it will become increasingly clear to others that Western intelligence agencies such as the Mossad, CIA and MI6 had their tentacles entwined in numerous projects of mutual interest. H.W. never retired as Director of the CIA. He retained *emeritus* commander status until his execution. Pre 2017, the CIA reported to London, which reported to Rome.

How, why, when, where details may unfold over time. I don't know. The essence of my simplified argument in the paragraph above is not controversial among those who research and think outside of the fake news media (*e.g.* CNN) realm. CNN is a sick CIA psy-op of an epic scale.

It is simplistic to assume the Mossad reported to the Knesset. Its handlers include a hierarchical cartel of banking crime families, royal families and Vatican agents. The usual suspects, whose names are scattered throughout this book. It rarely if ever represented the interest of Israelis.

## Gulag

Is Google a mastermind of one of the world's largest spy networks? Are Facebook running a marathon for this sleazy Gold Medal title? It would be a photo-finish to choose the loser winner.

Alphabet owns Google. Google owns Linked In, Gmail, SlideShare and YouTube. Have you connected the dots? Trillionaire Google, Gulag, loves to stick its tentacles into free services that store your private data. How much of your personal stuff have you shared on these free platforms? Who is Alphabet Inc who did I hear you say? You know, that trillion dollars parent company with a near empty shell website that a website builder could replicate in five minutes. I kid you not. This content below shows about 50% of the home page content for Alphabet Inc.

Alphabet

is for Google

The toxic Google brand name is far too recognizable. Gulag's global power frightens the hell out of millions. The empty shell Alphabet brand enables Google to bid for billions of dollars in government contracts without scrutiny. Newspapers simply report that 'Alphabet was awarded the contract'. Most people don't read beyond the online digital headline. And Google knows it.

## MIC

The commercial side of America's Military Industrial Complex is less patriotic than its uniformed frontline armed divisions whose sworn oaths serve America's Constitution. By nature, many corporate executives loan their loyalty to the buck. Or the Yuan, Ruble, Pound or Shekel.

Boeing is supposedly a British Royal family holdout. They own a ton of Boeing shares. Billions of bucks slush their way from DC to Buckingham Palace courtesy of Boeing. Boeing is a big whale. Former Boeing Board Executive Patrick Shanahan served as American Defense Secretary from 2017 to 2019. Perhaps President Trump needed Pat's inside knowledge to cut cost blowouts.

Northrop Grumman, Raytheon, and Lockheed Martin are fat fry fish in America's Military Industrial Complex (CNBC, 2019). Sure thing, America, if you want to have the biggest and most powerful military in the world – then that is your free choice. Please cut the fat, waste, corruption and crap and you can achieve this with half the budget and save your taxpayers a trillion each decade. The Tweet above suggests that Donald Trump agrees. Note that Donald sent this Tweet as President Elect. This suggests that he is conveying his message as a top priority. Nice one.

## Unholy Trinity

Vatican

City of London

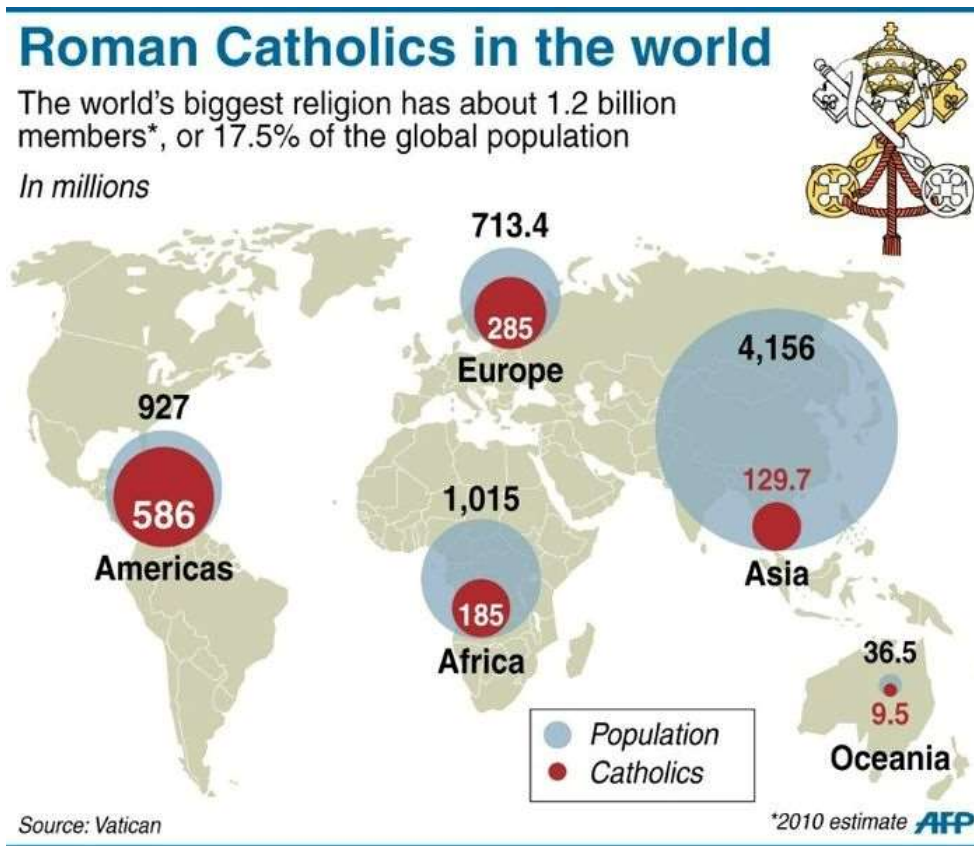

Washington DC

## Egyptian Obelisks

## Messianic

For some, the three Egyptian Obelisks placed in the Vatican, the City of London and Washington DC supposedly reflect the trinity of power structures that underpin a Vatican-centric globalist One World Government project. The Vatican is supposedly the spiritual arm that aims to create a one world religion that underpins this aforesaid One World Government. This claim is instinctively logic. Religion is a tried and tested tool for telling people what to do. It is no coincidence that most nations have one majority religion within the nation.

On one side of the coin, the Vatican appears to be the most powerful religious executive on the planet. Around 1.2 billion people are Catholic. This figure is higher than any other religion, including Islam. On the other side of the coin, around 6.5 billion people are not Catholic, including most citizens in the most populated nations – India and China.

## Goodbye

The renunciation of Pope Benedict XVI on February 28, 2013 was the first Papal renunciation in 598 years. A rare event indeed. The author of this book cannot recall the reason given. I encourage readers to consult a range of credible sources to confirm the official reason cited.

# Pope Benedict Breaks 6-Year Silence To Comment On Clergy Sex Abuse Scandal

Some alternative media commentators link this renunciation to the ongoing pedophilia sex scandals in this church,

which seem to overwhelmingly target young boys. At the time he was prosecuted, Vatican Treasurer Cardinal George Pell was the third highest ranked Vatican executive.

## Moorgate

London is one of England's 33 counties. Like all counties, it has its own Police Constabulary, the famous London Metro. London Metro has no jurisdiction in the City of London. This city is a law unto itself, as the famed idiom goes. The City of London has its own Police Service.

[cityoflondon.police.uk/about-us/Pages/default.aspx](http://cityoflondon.police.uk/about-us/Pages/default.aspx)

Policing the Square Mile brings with it particular challenges, quite unlike any other policing area within the UK.

Among some well-informed inquiring researchers, it is debatable whether the City of London, which is a corporation, is part of the sovereign nation, the United Kingdom.

Working beyond the authority of parliament, the Corporation of London undermines all attempts to curb the excesses of finance

The *quasi* sovereign status of the City of London is consistent with its unofficial status as the global Capital of Finance. Global banks that have been charged with felonies such as money laundering and fraud in other jurisdictions, get off Scot free in the mysterious City of London. HSBC Bank is an example. It was prosecuted in America in recent years for such crimes.

## Grimaldi

The House of Grimaldi is the inbred brand name for the low-key Monacan Royal Family. This clan is subservient to French branch of the vastly more powerful Rothschild banking crime family.

A visit by Chinese Premier Xi Jinping and his apex-level delegation to Monaco during March 2019 was barely covered by mainstream media. At face-value, it is strange to imagine that the head of the world's second largest economy and the world's most populous nation would find time to conduct negotiation meetings with a square-mile micro nation that has around 30,000 citizens.

Xi Jinping Holds Talks with Prince Albert II of Monaco 2019/03/

Monaco's Royal Family is France's *de facto* Royal Family. The French Royal family faked its exile from France. Virtually all textbooks managed by state funded school *curricula* are fraudulent psy-ops. The House of Grimaldi is a major powerbroker that part controls the global financial system. Royal families of German-speaking nations such as Liechtenstein and Luxembourg are fronts for Germanic Royal families who faked their exile from the Austro-Hungarian Empire. Germany and Belgium have similar flags as their royals are members of the same **black-red** inbred Nazi clan.

## Maryland

The District of Columbia is a curious jurisdiction. Its name tells the world in no uncertain terms that DC is not an American state. The adjective 'district' has low status in America's jurisdictions. A district often refers to a subdivision of a municipal government, such as a school district.

It is no coincidence that Washington DC is not represented in America's Congress, located in DC. DC, according to the puppet masters who hide behind the curtain, is not a part of America. To them, DC is the military arm of their covert One World Government project.

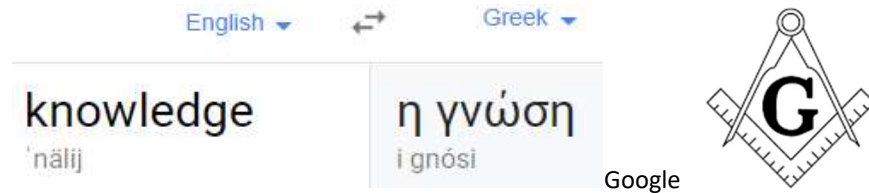

CBS (2013)

Apex monsters, mostly based in Europe, have puppet managed America's military apparatus and personnel to manage their resource wars such as those in Afghanistan and Iraq. Setting one nation up as the all-powerful military force serves a core purpose. It guides the global populace to demonize the scapegoat nation. People eventually search out the arch warlord beneficiaries when there is no distraction scapegoat. European royals, the fake Vatican Executive and the Rothchild banking crime family are the puppet-masters and arch beneficiaries of America's wars. American Empire is a myth. The Papacy is the CEO slave mafia crime boss of the Western sphere.

## Gnostics

This author is neutral to the noun-concept 'Gnosticism'. This is largely because he concludes that this word of itself means close to nothing. The origins of the word 'Gnostic' comes from the Greek root word 'knowledge'. Gnostics have knowledge. Don't most/all people age greater than two?

To this author, proper nouns such as religions 'Judaism', 'Christianity' and 'Islam' convey mass meanings from one word. This author, who knows little about any religious text, could talk for hours about basic ideas that are widely linked to the Old Testament, New Testament and Koran.

The so-called Meritocratic Gnostic Illuminati may be a non-bloodline collective who created/infiltrated/control Freemasonry. How their birthright equality ideas play out behind their secret society cloak is unclear. Some say most/all Gnostics are atheists. Many Gnostics openly claim to be monotheists. Many commentators link Gnostic beliefs to science, such as the geometric shapes in the Freemason's logo. Many researchers claim that science-based Gnosticism and monotheistic theology are always mutually exclusive. Others argue they are partially or fully complementary. Freemasonry is probably just another network that comforts its junior pawns (men) into feeling like they are part of something bigger than a solo life. Views, agendas and loyalties in this clique vary widely. A minute percentage of contemporary masons have the skillset of the founding stonemasons of prior centuries. This society has morphed into a new entity.

# Modus operandi

## Mythology

Mind control is arguably the most powerful weapon available to militaries, governments and other apex elites. Many religions are little more than mind control cults. 'Knowledge is power' is not just a clique. Much publicly disclosed information about space, Antarctica, vaccines, fluoride and thousands of issues are fake. Virtually all sciences and social sciences courses are part fraud, part concealment. Those who control the political economy routinely use misinformation and disinformation to dumb down their populace. Inbred trillionaire crime families, mostly based in Europe, did not come to own entire nations by practicing an altruistic, knowledge sharing faith.

This author's works aims encourage free-willed critical-thinking among We the Peoples in key areas such as religion and education. These free books strive to promote people to escape classic mind control techniques that blatantly enslave and murder the working-class masses.

Some simple questions highlight the fact that many powerful information providers are flawed. For example, why are there so many contradictory versions of the Bible that have each sold millions of copies? This observation does not prove that Christianity is fake. It may offer evidence that we need to ask more questions and not blindly follow the words of charismatic cultists. If you dislike these books above, that is great. It means that you have used your mind to self-decide.

## Morality

Apex elite families who purposefully act to control this planet's population and resources on a massive scale for their own benefits are the most immoral (toxic) types of all. Period. History is littered with exposé s of fallen regimes that rarely or never practiced the strict moral code of governance that they preached and brutally enforced on others. These interconnected illustration questions aim to make this point in this author's opinion. May you freely form your own standpoint about assumptions and interpretations built into these images and questions.

Question 1: If I am a devout practicing Catholic, why should I follow the Vatican Executive directive that partially bans condom use, given that this church is littered with sex scandals?

Question 2: Why should I take notice of an executive's opinions about sex and sexuality, when they have a long history of harboring Cardinals and Bishops who rape children – especially boys.

[cnn.com/2018/08/19/us/catholic-sex-abuse-outrage/index.html](https://www.cnn.com/2018/08/19/us/catholic-sex-abuse-outrage/index.html)

- The former archbishop of Washington resigned from the College of Cardinals after accusations that he molested seminarians and an altar boy.
- A Catholic bishop in Australia was convicted by a civil court of covering up abuse, and the Vatican has accepted the resignations of six bishops from Latin America after church investigations.
- An Associated Press investigation found evidence that priests and bishops around the world have [abused Catholic nuns and sisters](#) for decades.

Question set 3: Why can't Catholic priests marry? Where does it say so in the Bible?

## Ghastly

Many journalists speculate that Beijing is forging a covert deal with the Vatican to install a state-sponsored Sino Catholic national religion in China. At present, Beijing outlaw religious bodies from expanding nation-wide. This policy usurps cultural and political power of organized religion.

BEIJING — A 54-year-old priest who studied in the United States was installed this week as a bishop in China, the first to take office after a landmark deal signed last year between the Vatican and Beijing.

### **The New York Times**

According to [Chinese media reports](#) that were [confirmed by the Vatican](#), Msgr. Antonio Yao Shun was installed on Monday as bishop of Jining in the northern Chinese autonomous region of Inner Mongolia.

The ceremony in Jining seemed to signal that Beijing was willing to make compromises as part of the 2018 deal, which was signed last year to facilitate appointing new clergy.

Any such marriage of inconvenience will have more octopus-agent backstabbing assassination plots than a Jeffrey Archer thriller. Neither partner envisages sharing power with the other in the end game of their New World Order slave hell gulag matrix. Both parties know in advance that the other will feign friendship and forever plot to outfox the other. The Vatican and Beijing both think they are the superior one at the table. Popcorn munching stuff. Doomed to go pear-shaped.

## Materialism

Did it ever occur to you that if you spend less, you can work less? It's not a sarcastic question. I was 41 years old when my mandarin mate shared this Confucius say pearl. I never forgot it.

Westerners and others have been programmed to consume *ad infinitum*. The more we consume the more we must earn and the more tax we pay. We are slaving ourselves for the same parasitic crowned clowns who I shamelessly finger in this book. This author thought he had practiced this 'Confucius say' mantra on a milder level for most of his life. In recent years he has realized that there are ways to take this to a deeper level, without becoming a mad monk who disses capitalism. Sustainable minimalist capitalism has high merits if it increases the quality of *your* life.

During the post WWII period, until *circa* mid-1980s, most American families could support two parents, a couple of kids and a family car on a School Teachers' salary. Does this sound like your family and the others who you know? We are being worked and taxed to death. Per the plan.

## Mortgages

For many minds, including sound ones, a mortgage is synonymous with servitude to a bank for 30 years. Follow the money – all the way to the Bank for International Settlements in Switzerland. The Central Bank of Central Banks. Central banks are privately owned. American mortgagees and others work for the Rothschild crime family, and the higher ranked puppet masters they serve.

It is not easy to escape this economic matrix whose design purposefully favors the perpetual replication of a usurious scam system. Other models exist. In nations like Fiji, hereditary farmland is shared among family clans, including the poorest. Members inherit a slice at adulthood. Land is the largest cost that underpins home prices. Cooperative home building labor supply ventures are an old model. These pooled labor scheme save new home builders a packet on labor costs.

Most banks earn most of their profit from mortgage interest. The death of this corporate model may nullify wage–debt slavery. Your will and political will are the missing elements. Community grassroots banks may be a superior model to regional and global banks. Banks won't go quietly into that good night. They will go kicking and screaming. And they will forever plot their return.

This interesting movie, *Rogue Trader*, is about a theme that recurs in this book – the notion of scapegoats. According to mainstream fake news folklore, a 28 years old rogue trader brought down Barings Bank, established in 1762, in 1995. This bank's most famous customer was then none other than Queen Elizabeth Saxe-Coburg & Gotha II. Back in those days when she was alive.

## Militarism

America's military state displays the fundamentals of deep state sister-cousin nations such as Britain and Canada. Many of America's arch enemies are or were fake. At different times during the past six decades, North Korea, Cuba and Russia were under the control of the Eurocentric deep state apparatus and posed no threat to the West. The aftermath of the fall of the Soviet Union falls in this category. Former Soviet states – Latvia, Lithuania and Estonia are NATO members. The island nation of Cuba supposedly posed a major threat to continental America. America has had a military base, Guantanamo Bay, located on Cuba's East bay since 1903.

The Military Industrial Complex can siphon an easy extra trillion dollars in revenue per decade if they can keep Americans and their friends and foes in a perpetual state of fear. Their mass media allies constantly propagate messages of imminent doom to justify bloated defense budgets.

May, 2003

Feb 2007

Fake news like Slime are experts at hypnotizing us to think that perpetual global war is inevitable.

## Martial Law

The 9/11 inside job served numerous functions for the Euro-centric deep state masterminds. The probably unconstitutional *USA PATRIOT Act (2001)* rammed through Congress enabled the deep state to spy on Americans without probable cause. Please consider these facts about this act:

1. The bipartisan support by numbers is exceptionally rare:  
357 House Members supported the Act and 66 rejected the Act;  
98 Senators supported the Act and 1 senator rejected the Act.
2. The legislation was not accompanied with a House or Senate Committee Report.
3. The package of Bills that amends 15 Federal laws comprised 342 pages of legislation.

House and Senate members had less than three days to read this massive Bill before voting.

The covert installation of Martial Law by the anti-American deep state can work both ways when they lose power. Are we witnessing a military-led expulsion of foreign enemies of America's Constitution who have infiltrated America from within? Is this truth boldly hiding in plain sight?

The military this month put out a solicitation for contractors to compete to provide [a non-chewable padded cell](#) for its new two-cell psych ward there.

Other funds for the court expansion include \$2.1 million from \$60.8 million allocated for a pier in the Kwajalein atoll in the Marshall Islands that came in under budget.

The [original Expeditionary Legal Complex](#) was built in 2007 and cost \$12 million, using mobilized engineers to construct it.

It has the Pentagon's Top Secret eavesdrop-proof war court chamber for former CIA captives, where the public hears proceedings on a 40-second delay. The expansion phase [does not provide](#) for a second courtroom sought by the chief judge, just secure office spaces. It is more expensive because this time the Pentagon is hiring outside contractors to pave, put in utilities hookups, build more security fences and add perimeter lights.

## Mongrels

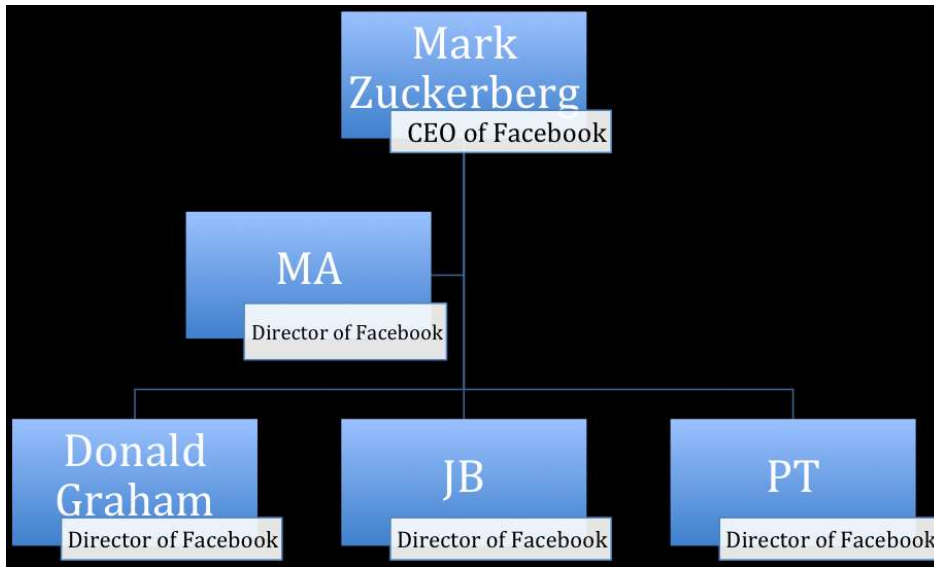

The heavily inbred crime cartel which brutally rules over the West cares not for countries. Nation-states sovereignty is illusion hopium to blind the masses. As shown in the first illustrative diagram overleaf, large corporations are carved into divisions by function. This structure makes it easier for a Chairman (Vatican) and a symbolic CEO slave worker (*e.g.* Elizabeth II, deceased) to manage day-to-day functions. A CEO can manage a handful of Executive Vice Presidents. S/he cannot manage 50, 000 staff directly. This diagram below is one version of the infamous Committee 300.

## Appropriation

Schiff Gold (2019)

In 1933, the treasonous British-backed illegal American Government confiscated American citizens' gold assets. This timing was not coincidental. The mafia banking crime families that dominate global business – such as the Rothchilds and Schiffs, engineered the global economic collapse after 1929. They are currently trying to orchestrate another global economic collapse, so that their banks can confiscate millions of mortgage default homes in America and abroad.

England is not a gold producing nation. Some American gold loot likely found its way into these golden carriages that are worth about USD 300, 000, 000, 000 (USD 300 billion). These carriages are the private property of the inbred Saxe-Coburg & Gotha Anglo-Germanic-Nordic mafia crime family who engineer wars and global depressions to plunder other nations' wealth and children.

## Media

The mainstream corporate media is the biggest psychological operation on this planet. This may change. When was the last time that you saw and heard a major Head of State inform a global audience that one of the most famous news networks on this planet is quote, 'fake news'?

[usatoday.com/story/news/politics/2018/11/07/donald-trump-jim-acosta-](https://www.usatoday.com/story/news/politics/2018/11/07/donald-trump-jim-acosta-)

CNN News is a great to view for entertainment. If you are aroused by watching clowns in action.

## Actress

A CNN news reporter claims to report something about a chemical gas attack in Northern Syria.

This CNN thespian visits Northern Syria to investigate whether there was a recent sarin gas attack in this region. Sarin gas is one of the most lethal substances known to mankind. Droplets that can fit on a match head can kill dozens of people in minutes. This guide hands a piece of clothing to this reporter – supposedly evidence that sarin gas was released in Syria. This actress proceeds to sniff the sarin gas laced clothing. She pulls multiple grimacing facial expresses and concludes:

“Ah ... there’s definitely something that stings.”

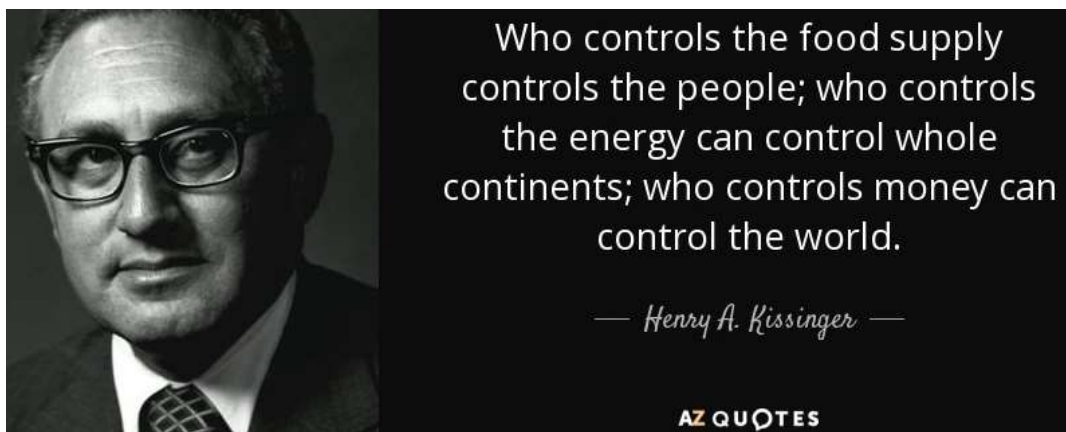

---

Why would a tour guide hand a supportive reporter clothing contaminated with sarin gas?

If you were a reporter, would you voluntarily sniff clothing laced with sarin gas residue?

## Mastication

People can live without money. And in most environments, they can live without shelter. People cannot live without food, water or oxygen. It is difficult to control access to oxygen – it is in abundant supply in every nation. It is somewhat difficult to control access to water, because of rain and local rivers. It is much easier to control the food supply for those who live in heavily populated urban centers. This equates to around half of America’s population of 310 million.

---

Can you confirm that this quote is attributable to this person from a more authoritative source?

---

So-called genetically modified (GMO) Frankenstein foods are a controversial topic. According to elite scientists who control the narrative, the core advantage of GMO produce is that superior seeds and strains can be selected. These are the ones that can survive weather storms, mini droughts and pests. Some/most GMO produce generate non-reproductive seeds. Farmers cannot use these seeds to farm the next harvest cycle. They must purchase new GMO seeds from an oligopoly provider such as Monsanto. This cycle seems to be the antithesis of natural agriculture. Corporations such as Bayer and Monsanto wield extreme power over the global food supply. Some farmers are locked into contracts that force them to buy seeds from one GMO supplier.

## Amazon

The CEO of Amazon, Jeff Bezos, is worth about USD \$160 billion. That's 160,000,000,000.

Low wage slave-driver Amazon seems to know no bounds in its quest for absolute domination of the American economy. As shown in this article, Amazon fancies itself as a supplier of groceries.

[usatoday.com/story/money/2019/11/11/move-over-whole-foods-amazon-reportedly-open-new-supermarket/1000000000/](https://www.usatoday.com/story/money/2019/11/11/move-over-whole-foods-amazon-reportedly-open-new-supermarket/1000000000/)

### **Amazon is set to open a new grocery store in Los Angeles**

Amazon is opening a new grocery store in the Los Angeles area that won't be like Whole Foods, but rather a competition against Target and Walmart. *USA TODAY*

Months after reports surfaced that Amazon would be opening a new set of supermarkets, the e-commerce giant says it will be opening a new grocery store in Los Angeles.

The new store will be in the Woodland Hills community and open for business some time next year, according to an Amazon spokesperson.

Amazon wouldn't say if the grocery would be a stand-alone or the start of a new chain, or what it would be called, but it did confirm that it would not be part of Whole Foods, the grocery chain Amazon bought for \$13.7 billion in 2017.

"This new store offers another grocery option that's distinct from Whole Foods Market, which continues to grow and remain the leader in quality natural and organic food," the company said in an emailed statement.

MK Ultra bug eyed Bezos is the public relations front man owner of *The Washington Post*. I doubt that this partisan rag has published a single positive article about Donald Trump since January 2017. As the deep state unravels, it will be interesting to learn the identities of Jeff's thespian theatrical handlers. This author doesn't know. Military intel does.

## Medical

The sicker people remain, the more money earned by the medical fraternity. Cures for HIV, cancer and other chronic diseases threaten their profits. Imagine this scenario. Robin, age 35, is enrolled for a cure for HIV today. A cure that existed in the 1980s. Now consider this situation. This cure is withheld by deep state cartels and their minions such as fake University Hospitals. Robin's health insurance provider will be charged for drugs, hospital visits and pathology tests for the next 45 years. Robin's sickness is worth about USD\$2.2 million to the healthcare industry. Robin's cure, a three months course of drugs, earns the industry about USD \$20,000.

Corruption is endemic at the upper echelons of America's healthcare industry. Compassionate frontline staff who overprescribe opioids, other drugs and useless medical procedures are mostly following mandatory procedure. They risk a lawsuit, dismissal, incarceration or deregistration if they refuse to prescribe certain medications and procedures that they know are bogus.

This author is not qualified to surmise what therapies are fake or exaggerated. I shall never forget the departing words of a retiring physician at our last consultation – “the entire health industry is a scam”. For reasons not known to this author, the efficacy of vaccines – a multibillion dollars *per annum* industry, attract more sinister criticism than other medical issues. This page barely scratches the surface of the partial dysfunctionality of America's corrupt healthcare system. Reforming this industry is a top 5 crisis policy priority. America's existing medical infrastructure has the potential to be number one in this world in just a few years. Current staff skills are first class. Are you listening Donald Trump? You are the policy reform man for this magical moment.

## AMA

The American Medical Association and the Food and Drug Administration are probably among the most powerful top 100 brands and lobby groups on this planet. Endorsement from either body can earn a single corporation billions of dollars in profits per decade.

There is evidence that FDA and AMA policies don't always put patients and physicians first. That is putting it mildly. This author proposes that the current administration harden their somewhat hardline against fake pharma cartels who mass murder Americans and others in the name of beneficence. Health is a right. And the secret to a long life, Ms Pearl Necklace is ... [drum roll] ...?

### ***Beverly Sackler, 95, Dies; Philanthropist and Purdue Pharma Director*** *The New York Times*

Ms. Sackler was the matriarch of the company whose drug OxyContin has been blamed for the opioid epidemic.

Some of America's arch enemies are armed with satellites and missiles. Others with phone bugs and El Chapo's drugs. And some in white collars are armed with fat cheques for fake university research centers who twist lab data to spit out predetermined results. It's easier than 1, 2, PhD.

Don't expect to see all these developments in the fake news corporate media, like CNN.

As far as European Royals are concerned, America's Congress and its Presidents rank lower than junior European nobility. America's Head of State is called a President for a reason. Under Admiralty Law, a President is a Head of a Corporation. In the eyes of the Venetian dark nobility, the Vatican and European royals, American Presidents are the chief employee of their private corporation. This slave corporation sends most American earned taxes collected to Europe.

RICO Act: *Racketeer Influenced and Corrupt Organizations Act (USA)*

Mobsters have a long history in America, especially in big cities such as Boston, Chicago and New York. The shenanigans of Al Capone, *et al.* have been propagated to death, pardon the pun, by Hollywood. Why do most of them have Italian and Irish surnames? Connect the dots.

It is probably no coincidence that Puerto Rico boasts the port (Puerto in Spanish) name Rico. Puerto Rico is home of the IRS. It is also a Head Office Branch of the Federal Reserve. Classic Admiralty Law. A treasure island surrounded by sea. Its status under various Federal American Laws that aim to cover the 50 states is dubious. Is this a coincidental location for strategic assets?

## Analytics

There are big bucks in data theft and covert data surveillance. Nothing in life honey/buddy is free. There is an ocean of 'free' applications out there. Please consider this example. A certain free Acrobat PDF substitute has a covert purpose as their site isn't free to run. When you send your document to this service, AI or a person reads your upload. It might have some juicy, valuable stuff on it, like patent applications or a classified diplomatic cable. Being suspicious of free tech providers isn't paranoid. It's the new reality. Please consider the potential dual purpose of these sites. Some of these suspected claims shown in this table are widely accepted by millions as fact.

Agency	Examples of data that it allegedly collects, monitors
Facebook	Most things: your location, family, friends, purchases, hobbies, travels.
Google: YouTube	Your viewing habits. Your entire life course and career.
LinkedIn, Gmail.	Your correspondences, digital files, online searches.
MSN chat	Your social habits.
Skype	Your televised chats; can monitor your face shape, voice tone.
Change.org	Monitors/registers those who disagree with government policy.
Reddit	Your opinions and knowledge. Targets so-called 'regular' people.
Quora	Your opinions and knowledge. Targets so-called 'intellectuals'.
Airbnb	Peoples' travel movements (guests) and tax avoiders (hosts).
Wikileaks	Subversive insiders who are willing to leak classified data.

Some free services may be based in nations with weak privacy laws. Voice recognition technology exists. Private conversations that I have had by others' cell phones away from my devices seem to show an uncanny match with new YouTube suggested play lists that I see when I return home. Credible people who I know personally share similar accounts with me when I see them.

This author surmises that the Saxe-Coburg & Gotha *Regina* died *circa* 2012. Royal historian and blogger [Marlene Koenig](#) told Fox News that Andrew's brother [Prince Charles](#), 71, who is next in line for the throne, was involved in the decision to have Andrew step back from public duties "for the foreseeable future."

I question whether the University of Cambridge IELTS human trafficking scandal pushed Lizzie over the edge. You can read about this scandal at [www.ielts.agency](http://www.ielts.agency) . This racket debased the brand of England's future *Regus*, Duke of Cambridge. A British Brexit Republic, lads and lasses?

CGI and a younger body double who hides in big hats keep her alive in public domains. For now.

## Association

Ethical professionals, such as and journalists, should avoid implying guilt by mere association. Period. On the other side of the coin, rare exceptions exist. The MI5 and MI6 report to the British Royal sovereign. It is near-impossible for outsiders to get close to senior royals without their entire background being vetted. Why do British Royals Knight and befriend serial child rapists?

Queen Elizabeth II Saxe-Coburg & Gotha (deceased) hand selected a serial child rapist to paint her official Portrait. Rolf Harris is in jail. Her son, Randy Andy, was good buddies with child sex trafficking Mossad crime boss Jeffrey Epstein. Queen Gotha and the Vatican knighted child sex trafficker Jimmy Saville who was buddies with the Saxe-Coburg & Gotha pedovore porn palace.

Who molested and imprisoned this naked child who escapes a Buckingham Palace window via a set of knotted bed sheets? His fall from this height probably killed him. RIP Pedo Palace prey.

## How Savile seduced the royals: As it's claimed he nearly became godfather to Harry, how the predatory DJ wormed his way into the very heart of Palace life

- Serial paedophile inveigled himself into Prince Charles' life as a mentor
- He was granted unprecedented access across all of the royal palaces
- Even the Queen couldn't resist his charm — or so he liked to claim
- But Diana found him 'creepy' and recoiled after he once licked her hand

## Alternatively

To the Black Sun Venetian Nobility, their White Pope is just another disposable thespian front man. Right, Benedict? Pope John Paul I was supposedly born on October 17. He died after being Pope for 33 days. These numbers are coded constructions and inversions. His sacrifice after 33 days was possibly a coded message to 33<sup>rd</sup> Degree Masons who had infiltrated his Papacy in 1978. Number 33 is codeword for the age of Jesus Christ at death. When 33 is manufactured, it is usually a dark inverted message to celebrate anti-Christian values or defeats over authentic Christians.

This introductory book about covert Maritime Law does not mention all related issues worthy of investigation. These exclusions aim to keep this book to around 100-pages to avoid overwhelming those new to this most complex topic. Readers may freely consider investigating these issues:

- Does America's 13<sup>th</sup> Amendment legalize brutal slavery?
- The link between the *1783 Treaty of Paris* and the enslavement of America's citizens.

Are you a member of a brainwashing guilt cult that expects you to confess your dirty sins to a faceless, nameless anonymous person hidden in a dark cubicle? If so, please freely reflect on this gentle suggestion. If you are a wealthy, powerful or a vulnerable exposed person, please be very careful about the information you share. This system may have been established as blackmail extortion revenue racket. If you don't pay up, your wife or whoever gets a tell-all letter. And when I say pay up, I mean a cut of every paycheck. For the rest of your life.

**Do you concur that America has been covertly controlled under Maritime Law since circa 1933?**

## Non-dichotomy analysis model

### Opinion 1

Absolutely. This book provides a trail of evidence and data references. All claims are consistent with what I have seen in my life time.

### Opinion 3

I think that most of the claims are true. However, I only see three references to 1933 in this book. I think that this scam dates back to 1871.

### Opinion 2

I do not believe anything in this book. None of these claims are taught by respected orthodox universities.

### Side 1

Side 1 is a polemic viewpoint

### Middle Ground

### Side 2

Side 2 is a polemic viewpoint

### Alternative argument 1:

These claims would take decades to prove. I don't have the time or will to confirm these opinions. I therefore have no opinion.

### Opinion 4

### Alternative argument 2:

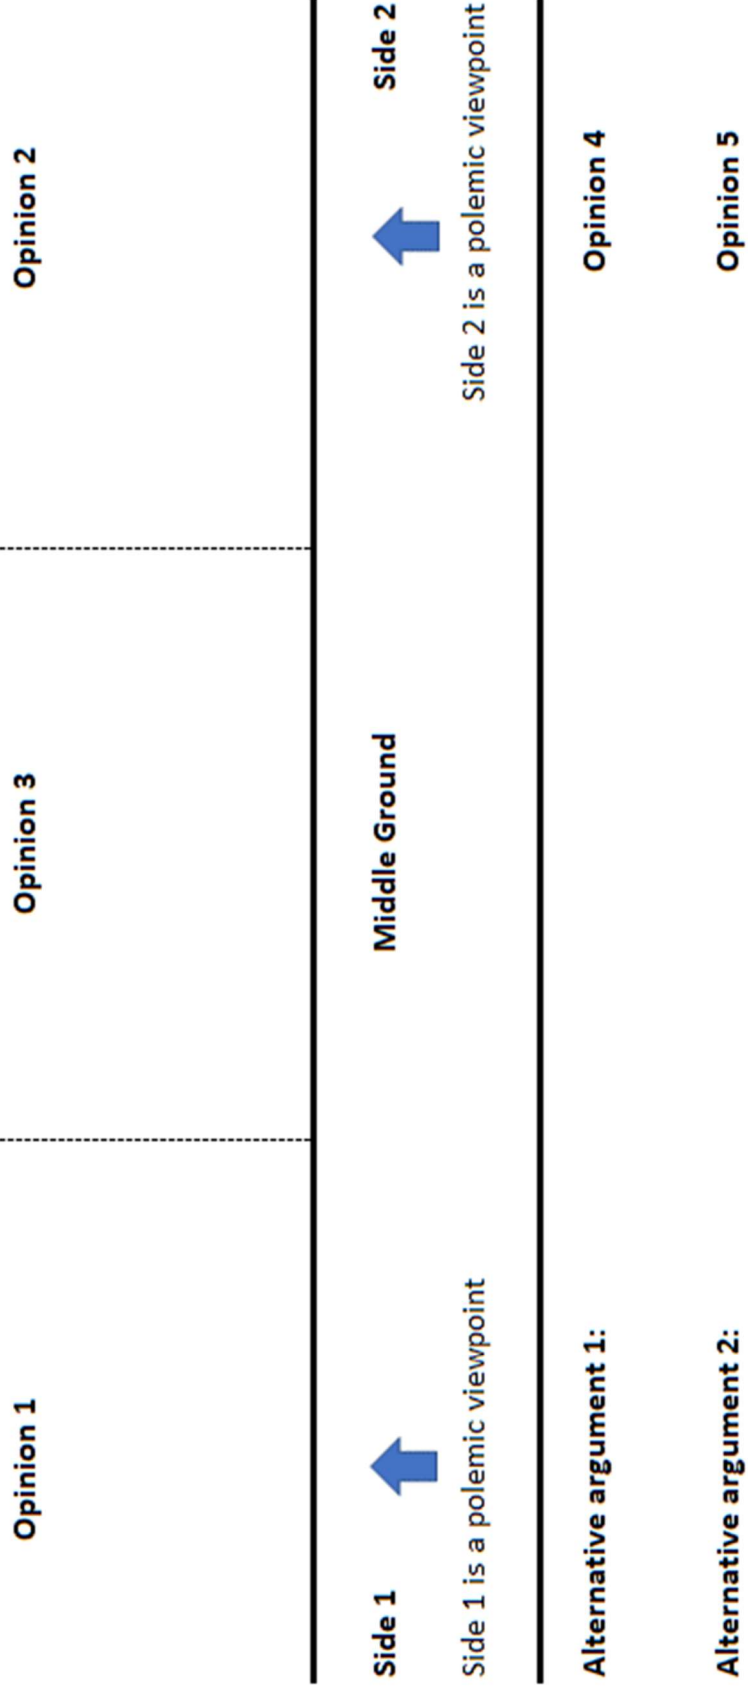

This book is not neutral. It takes sides. I therefore have no opinion about its content.

### Opinion 5

This author probably will not write another book for 12 months, unless a critical mass of people writes to him requesting that a specific free book be written.

I might write this free book if 17 people request it before 3/3.

I agree, that sick joke is lame tame. But then again, isn't this entire book a bit scary?

Let's all think positive and hope for a happier better world in 2020 and beyond.
