

# The Hollywood Kabbalah Cult Unmasked

*By  
Timothy*

Jay Z, Rihanna, Bono, and Lady Gaga demonstrate their allegiance to the Kabbalah cult, also known as the Illuminati.

## *Fitzpatrick*

If you ever wondered why the lives of Hollywood stars are so troubled but concluded the reason was nothing more than vanity, substance abuse, and too much money, think again.

Hollywood is ruled by a Kabbalistic cult—also known as the Illuminati—which is wreaking havoc in the lives those on the silver screen and in the music industry, according to blogger 101TheDestroyer in The Wake Up series.

TheDestroyer has created a series of videos shedding light on Hollywood's deep dark secret, and all the big names are implicated. MK Ultra mind control, ritual murder, witchcraft, Freemasonry, membership at the Kabbalah Centre, and selling one's soul to the devil are not the exception to the

rule to making it in Hollywood but are actually prerequisites.

The proof? The prevalence of dissociative identity disorder (also known as split personality disorder) among the stars and their obsessive use of hand signs and occult symbolism in their album art and in their on-stage theatrics. Then there are the red Kabbalah bracelets that Hollywoodites can be found wearing when they are out of character.

But I am going to let the video presentations do the talking. I have broken down the main points from each of the 42 videos in point form below. (Just click on the parts highlighted in red to go to the videos). The first nine videos are rather dry if you are an avid conspiracy researcher. The good stuff starts at about Part 10. Part 14, where ex-Illuminatus John Todd reveals that every record album produced has a spell cast on it by witches, is the most interesting video out of the entire series in my opinion. The rest reveal some very interesting, little-known facts and piece everything together.

Out of all of the stars examined in The Wake Up series, you will learn that Madonna and Lady Gaga are two of the most loyal followers of Lucifer, and they are not afraid to admit it. Many of the other stars are not so loyal, and when they start to rebel from their childhood-based Illuminati programming or renege on their unspoken contract with Hollywood devils, they wind up dead or demoted.

I guess Randy Quaid isn't crazy after all.

Rhianna bent over inside a pyramid in the Umbrella music video. The videographers obviously doctored this scene to extend Rhianna's neck—creating the snout—and to create the eyes at her shoulders—stylized after the Baphomet head on the right. In real time, this particular scene flashes by rather quickly to give it a subliminal effect.

Rihanna doing her Baphomet thing again.
