Anti-EU revolution,
Ukraine crisis threaten
to derail global government

The 2014 Bilderberg meeting in Copenhagen, Denmark is taking place amidst a climate of panic for many of the 120 globalists set to attend the secretive confab, with Russia's intransigence on the crisis in Ukraine and the anti-EU revolution sweeping Europe posing a serious threat to the unipolar

world order Bilderberg spent over 60 years helping to build.

Inside sources confirm to Infowars that the elite conference, which will take place from Thursday onwards at the five star Marriott Hotel, will center around *how to derail a global political awakening* that threatens to hinder Bilderberg's long standing agenda to centralize power into a one world political federation, a goal set to be advanced with the passage of the *Transatlantic Trade and Investment Partnership (TTIP)*, which will undoubtedly be a central topic of discussion at this year's meeting.

The TTIP represents an integral component of [Bilderberg's attempt](#) to rescue the unipolar world by creating a "world company," initially a free trade area, which would connect the United States with Europe. Just as the European Union started as a mere free trade area and was eventually transformed into a political federation which controls upwards of 50 per cent of its member states' laws and regulations with total contempt for national sovereignty and democracy, TTIP is designed to accomplish the same goal, only on a bigger scale.

The deal is being spearheaded by Obama's U.S. Trade Representative **Michael Froman**, a Wall Street insider and a [CFR](#) member, Bilderberg's sister organization.

Froman is simultaneously helping to build another block of this global government, the *Trans-Pacific Partnership (TPP)*, which is a similar project involving Asian countries.

Given that Bilderberg schemed to create the Euro single currency [as far back as 1955](#) (Bilderberg chairman **Étienne Davignon** [bragged](#) about how the Euro single currency was a brainchild of the Bilderberg in 2009 interview), the results of the European elections are sure to have stirred outright alarm amongst Bilderberg globalists who are aghast that their planned EU super-state is being eroded as a result of a populist resistance mainly centered around animosity towards uncontrolled immigration policies.

In Denmark itself, the buzz is centered around [Morten Messerschmidt and the Danish People's party](#), which won 27% of the vote in the Euro elections and doubled its number of MEPs. Although some are wary of Messerschmidt's far right inclinations, his success reflects a general resentment not only in Denmark but across Europe towards immigration and the welfare state, concerns that the EU has only exasperated.

Meanwhile in France, **Marine Le Pen** [is carving out a role](#) as the face of a conservative movement that threatens "to break up one united Europe," with her European election win being described as an "earthquake" that has rattled the political heart of Europe.

Voters in the United Kingdom also delivered a thumping rejection of the EU and in turn Bilderberg with the success of **Nigel Farage** and UKIP, a Euroskeptic triumph [some are labeling](#) the "most extraordinary" election result for 100 years.

As well as TTIP and the fallout from the European election disaster, Bilderberg will be tackling a number of other key issues, most of which will revolve around the continued effort to centralize economic power under several different guises, including a carbon tax paid directly to [the United Nations](#), with the financial hit being taken by individuals as big companies are granted special "waivers" that will allow them to continue to pollute.

The rumbling crisis in Ukraine and the relationship between Russia and NATO will also be a focal point of Bilderberg 2014.

Globalists now consider **Vladimir Putin** to have ostracized Russia from [the New World Order](#) because he dared to "challenge the international system," as *John Kerry put it*.

Bilderberg will discuss fears that Putin is intent on constructing an *alternative world order* based around the BRICS countries, a "multi-polar" system that would devastate the dollar as the world reserve currency and also heavily dilute the current US-EU-NATO power axis.
