Remember death panels?

They're baaaaaack now that *Obamacare* is law of the land.

Before *Obamacare* became the law of the land, liberals and “progressives” went ballistic over *Sarah Palin's Facebook* entry stating an obvious fact - Obamacare will realize its savings on relegating seniors to sub-standard health care via rationing.

Libs were outraged and said there was no evidence the government plans to implement “death panels.”

Palin's assertion was subsequently deemed “lie of the year.”

That was then, this is now.

Earlier this week, *Health and Human Services Secretary* (and Bilderberg member) [Kathleen Sebelius](#) said Dr. [Donald Berwick](#) is “absolutely the right leader at this time” to head up the Centers for Medicare and Medicaid Services. Obamacare will cut hundreds of billions of dollars from Medicare over the next decade as the Boomers retire and enter old age.

Berwick is the *right man* for the job.

“The decision is not whether or not we will ration care – the decision is whether we will ration with our eyes open,” Berwick said while discussing the council for Comparative Effectiveness

Research, which was tasked with researching and evaluating the cost of medical treatments and their outcomes.

It was part of the \$787 billion stimulus package and one of the building blocks **Obama** wanted in place before the health-care takeover bill was passed, writes Jane Chastain.

During debate on *Obamacare*, mechanisms for rationing embedded in the legislation were revealed - the *Patient Centered Outcomes Research Institute*, the *Independent Medicare Advisory board*, the *CMS Innovation Center* and the *U.S. Preventative Services Task Force* - but few in the corporate media paid attention.

Most of them were too busy attacking criticism of the bill.

“I’m really pleased that the President nominated Dr. Donald Berwick,” Sebelius gushed.

“He’s known nationally as an enormously competent physician and an enormously passionate health care provider and someone who, I think, is incredibly well suited to help increase the quality of health care delivered to the 40-plus million Americans who rely on Medicare services and also the 30-plus million on Medicaid services.”

Dr. Berwick is enamored with the British healthcare system that,

“uses end-of-life death pathways, which withhold expensive treatment in favor of morphine and hand-holding. Physicians have charged that this leads to premature death for many British citizens,” according to Chastain.

“During the debate on the health-care takeover bill, Obama ridiculed those like [Senator] Roberts who tried to warn us about rationing and Sarah Palin who used the term ‘death panels.’ Now that his administration has admitted that rationing is part of the plan, at the very least, he owes these folks an apology,” writes Chastain.

Apologize? Go fish. No apology will be forthcoming.

Our eugenicist rulers are determined to eventually [reduce the global population](#) to around 500 million people who will be reduced to *robotized slaves*. *Obama’s deathcare operation* is one small step in this direction.

It is no secret the primary goals of the [Bilderberg Group](#) are a one-world government, a one-world monetary system and a vast reduction in world population. In 2009, the “billionaires club” - [Bill Gates](#), [David Rockefeller](#), Ted Turner, Oprah Winfrey, Warren Buffett, [George Soros](#) and Michael Bloomberg - gathered in New York to discuss the “disastrous environmental, social and industrial threat” your continued existence poses to the global elite.

Gates and **Buffett** in particular have donated huge sums of money for *population control*.

For [the global elite](#) and their minions, we are contemptible *useless eaters*.

“Frankly I had thought that at the time Roe was decided, there was concern about population growth and particularly growth in populations that we don’t want to have too many of,” Supreme Court Justice Ruth Bader Ginsburg admitted last year.

The elite believe they can maintain the facade of a Constitution and Bill of Rights as they go about decimating world population.

Obama’s science czar, **John P. Holdren**, said as much when he wrote in *EcoScience* (page 837):

“Indeed, it has been concluded that compulsory population-control laws, even including laws requiring compulsory abortion, could be sustained under the existing Constitution if the population crisis became sufficiently severe to endanger the society.”

Gates and Buffett have announced the “crisis” of world population is “sufficiently severe to endanger the society” of global elite.

It is no mistake a Bilderberg member is the Secretary of Health and Human Services. It is also no mistake Obamacare was passed and will be implemented at the precise moment millions of Baby Boomers enter retirement and old age.

Millions of Boomers - who dutifully paid their taxes including taxes for *Medicare* - will *suffer the fate of Edward G. Robinson in the 1973 film Soylent Green*:
