They are not science fiction, they are a reality.

This was demonstrated in *the chat Terra* journalist **Cristina Martin**, author of [The Bilderberg Club - The Masters of the World](#), editorial Arcopress. He talked about the structure of this "society", how they act, what companies are and more.

Do not miss the list of names he gave, there are many Spaniards.

Asked **Imma_bcn** - Actually what the Bilderberg club aims? **R** answer Cristina Martin, author of The Bilderberg club - seeks to impose a world government. Something as complex as that ...

Angelo - Religions have some sort of role in the Bilderberg Club?

R - The [official religions](#) no, although there is a direct connection with Freemasonry. The belief of Masonry is the existence of the Architect of the Universe (a large and particular god). The religion of the members of the Club remains outside, they will not talk about religion. They are known for their financial and geopolitical objectives, control the world ...

I loreto - What is the largest nationality of all members?

R - Are Americans and Europeans. There are also Canadians and ultimately the borders are opened to the Middle East.

Rufo - How is the relationship with the press? Are journalists in the Club?

R - Unfortunately there are journalists who act as lapdogs. There are media moguls and owners of media handling and direct public opinion.

Glirhuin - Is it true that the Spanish present in the Club's Juan Luis Cebrián?

R - Yes, it's true. It is present for years. It is a very prominent Bilderberger.

Pikoleto - Is it true that Queen Sofia belongs to this group?

R - La Prensa de Casa Real has confirmed me in person who has attended several meetings. Although they insisted on them to tell me the reason for his presence did not. They just gave

me the years in which the Queen was and did so in the years 1991, 1994, 1996, 2001 and 2005. When Letizia announced her first pregnancy, the Queen was at a meeting of the Bilderberg Club.

RR - How is the structure and organization? How you enter the Club?

R - is entered by invitation only. There are many companies who have applied to enter but the club denied the invitation because they choose through the steering committee who are those who will.

The structure of the Bilderberg Club is: Is distributed in concentric circles. The intermediate is the *Steering Committee* or steering committee, composed of fifteen and twenty-four American members permanent European. They are responsible for selecting guests for each edition according to the thematic agenda planned deal.

The usual pattern is that each invite two personalities. The ideal tandem would be a senior politician and a businessman of the industry or a banker and an intellectual (a professor or journalist). Finally, the list will close with just over a hundred names.

The components of the *Steering Committee* are the heavyweights of Bilderberg.

They have their own agenda and discuss issues without more discreet than other workers, with whom they will meet to discuss broader issues, with the contents of these private meetings.

The issue of nuclear energy is a constant for years, and has recently been incorporated into the agenda of biotechnology.

The Belgian Viscount **Etienne Davignon** chairs the Club since 2000;

"Some of the Spanish members are Esperanza Aguirre Gil de Biedma, President of the Community of Madrid; Jaime Carvajal y Urquijo, financial, childhood friend of King Juan Carlos, a member of the Trilateral; Juan Luis Cebrian, CEO of PRISA; Guillermo de la Dehesa, Chairman of Instituto de Empresa; Javier Solana, the foreign policy of the European Union; Rodrigo Rato, managing director of the IMF. "

They also highlight the great bankers who have made and unmade history at will, like,

- [Rothschild](#)
- Warburg
- Baruch
- Schiff
- Morgan
- [Rockefeller](#)
- the firm [Loeb & Co.](#) are very present in Bilderberg

Also companies like,

- Coca Cola
- Pepsi
- General Motors
- Siemens
- Heineken ...

There are also ministers of the European Parliament, MEPs, academics, military ...

Each year about 120 or 140 people gather. all types of personalities have passed. If members are interested in the club and if not, do not repeat at the next meeting.

In the book many more names.

Pep_tu - Is it legal to the Club, its activity?

R - No, it's totally illegal, it is beyond the democratic framework. Hypocritically defend rights. Many work in government and are due more to the interests of the Bilderbergers as citizens they represent. They are acting in secret since 1954 and it's time to go on public view and stop deceive.

Arg - What influence did the club in the Iraq war?

R - All the world. This was the first place where they talked about it. Iraq was the first great cause for confrontation between members of Bilderberg because as we remember a few were favored in favor of war and others do not.

Neno25 - Have you been threatened or have they said anything for writing this book about the Bilderberg Club?

R - No, for now. So far I have worked freely. There have been many researchers who have unearthed sensitive issues for them and have them killed.

Jonah - How often meet and where? Are they based somewhere?

R - They meet once a year and in a different hotel in the world. It is protected by the CIA, the military, local police ... They have several offices. *The center is Leinen* , [Netherlands](#) .

I phoned asking for information and obviously said I could say nothing.

Usually shortly before the G8 meeting, provided the hotel is of luxury, with golf courses, always on the edge of a village not to attract too much attention. Next year will be done in Turkey, in Istanbul. Which it is not by chance that there is a Turkish Nobel literature prize.

Turkey is the door to enter Asia.

"They are the heirs of the old secret societies have forged history. The First and Second World War, Vietnam, the Gulf, the Falklands, the Afghanistan ... "

The relationship with Freemasonry and its influences

Mason - What have links with the Freemasons?

R - is the work of [Masons](#) but not recognized as a lodge but its members Masons printed character. Its founders and current leaders are Masons. Printed ideology Club.

Ludo - How far influences come Bilderberg Club?

R - The banker [James P. Warburg](#) said,

"Like it or not, we will have a world government. The only question is whether it will be by concession or imposition. "

This is the essence of their ideology, the world government would make cash through [the UN](#) , a body set up by them. Today the UN has nothing to do to what was created.

That government would be formed by a single military force that NATO would want to impose a single currency, a single religion based on the belief of Masonry. The Bilderberg Club is the current Freemasonry. They want to guide us in every way of life. They have created the bible of how to live today.

In the West it is very penetrated and now want to expand. In my book there is a chapter on the "Quiet War" which is a document that was leaked to the US public opinion entitled *The quiet war masters of the world* and is a manual on how to manipulate society. It looks like we have engaged in our work ... methods to make a malleable society.

To achieve its objectives seek *to manipulate society*.

They seek to replace the power of governments by the power of banking, finance and Rockefeller pointed out in 1999 in Newsweek International:

"Something must replace governments and private power seems appropriate entity to do so."

Terr [310] - What wars have caused and why?

R - All. Are the heirs of the old secret societies have forged history.

The First and Second World War, Vietnam, the Gulf, the Falklands, the Afghanistan ... In 60 different members of Bilderberg and other secret societies joined together to analyze the international situation. Out came the [Iron Mountain report](#) in which concluded that there are no more effective means war if what you want is to alter the life of the planet.

In short, they returned to realize that war is the best way to make a profit. They have implemented a war economy where their money arming both sides, create dangerous situations and take advantage with reconstructions, credits ...

They come to dominate the lives of the affected countries and turn them into slaves.

Fear - Who really sent [down the Twin Towers](#) ? Got bin Laden's ally Club?

R - I would not know. All I know is that there are US scientists ensuring that the towers were detonated in a controlled and others who prefer the opposite. The plane crashed but who crashed? The question is whether [Bin Laden](#) is an excuse to get into Iraq. I have no proof.

They have no qualms about killing people to get what they want.

"Spain as a European country is within the Bilderberg mechanism. We get the same messages as the rest of Europe and USA .. The introduction of the euro, the decision to participate in wars. All influences of the West. "

London_calling - painting the [Queen of England](#) in all this?_

R - Bilderberg is the evolutionary result of a secret society created in the eighteenth and nineteenth century and a series of alliances between the British crown and bankers. In my book I talk about the relationship between Freemasonry and the English crown.

Ellobosolitario - I think Miguel Sebastián was in the 2005 ...

R - I do not know if Sebastian was in 2005 but has been in one. Bernardino Leon, Secretary of Foreign Affairs, was in 2006 and 2005. Solbes is another common.

Avatar - I admit that there are unscrupulous people in this club, but the list given (with Spanish as Aznar, Solbes, Queen ...) I say that someone will refuse to kill for money, because ultimately they are all human and They have some decency.

R - The strength of the case is that they think they do *good for humanity* and that there is a better way of doing things. They think that to live as we do need this system of war with human suffering.

Yera - What percentage of women compared to men?

R - There are more men than women but there are also many women.

Nene21mad - What influences has the Bilderberg Club in Spain?

R - Spain as a European country is within the Bilderberg mechanism. We get the same messages as the rest of Europe and the US The introduction of the euro, the decision to participate in wars. All influences of the West.
