

THE SEVEN TYPES OF MEN

There exist two kind of humanities, the first one will be called mechanical humanity and the other, conscious humanity.

In order to pass from the Mechanic Center of Gravity to a Conscious Center of Gravity, is necessary the use of a third force, that is, the Gnostic work on ourselves, here and now.

The man number 1, is the merely instinctive and mechanical man, and prevail the instinctive, mechanic or motor centers.

The man number 2, is the emotional person who lives in the world of the inferior emotions, of the passions, of the animal desires, etc.

The man number 3, is the merely intellectual man who is reasoning all day long, all his life, he bases all his activities in the intellectual center.

The men number 1, 2 and 3 forme the circle of "languages confusion;" the men 1, 2 and 3 are the Towel of Babel because in this circle there is confusion of languages. The instinctive man does not understand the emotional man; the emotional man does not understand the intellectual man nor the instinctive man either; the instinctive man does not understand the emotional one.

There exists confusion of languages and no one understand the other. The intellectual man says something and the other understand in his own way; if an intellectual man affirms something to an emotional man, the emotional man does not understand him, he interpret his words according with his emotions, he gives to his words a completely different meaning.

When the instinctive man says something, the intellectual man listen in his own way, interpreting his words in the way he thinks is the correct. The emotional man could not be able to understand the instinctive man and when he affirms something the instinctive does not understand him either.

So even if a country speaks the same language, the men number 1, 2 and 3 do not understand each other because they live in the circle of "languages confusion," in the circle of Babel.

Over there nobody understand the other and it takes a lot of work to make the men number 1, 2 and 3 understand each other.

The men number 1, 2 and 3 interpret everything in their own way, in the way they think it is, so no one understand each other. The men 1, 2 and 3 are the ones that have provoked the great wars in the world. The first and second world wars were provoked by the men 1, 2 and 3.

It is necessary to become a man number 4 before been part of the kingdom, the kingdom is composed by the men [women] 5, 6 and 7. In the kingdom everybody understand each other, the confusion of languages does not exists.

The man number 5 possess an Astral body and he knows it, he utilizes it at will; the man number 6 possess a Mental body and he is aware of it; the man number 7 possess a Causal body, he knows that.

The confusion, the problem of humanity is in the men 1, 2 and 3, the ones of the Tower of Babel, they are the ones that have produced a lot of damage. I think, the divine hierarchies should already apart the men 1, 2 and 3 and leave in peace the men 4, 5, 6 and 7 because the men 1, 2 and 3 are making problems from long time ago and they are unable to understand each other.

Obviously, is coming a great catastrophe, this catastrophe will make the surgical operation that will apart the lambs from the goats. In this form is written.

Who is the man number 4? The man number 4 is the man that has balanced his organic machine and possess the Psychological Moon already, he has created a Conscious Center of Gravity; this type of man is ready to take part in the activities of the kingdom.

It is known that in order to create a Moon within ourselves, that is to say, a Conscious Center of Gravity is necessary use a third force, that force is the esoteric work. We are giving to you the teachings, so you can create the Gravity Conscious Center within yourselves.

Obviously, those who want the creation of such a center must begin by leaving aside the self-considerations, the self-sentimentalism. When one loves oneself so much, when one self-consider oneself so much, when one is full of self-sentimentalism, sighs, anguishes, sadness, etc., is normal to hate the others. At most one loves oneself, the most the piety one feels for oneself, the most one hates the others.

The most revengeful and perverse demons are those who love themselves so much, are those that self-valorize themselves and are full of self-sentimentalism, of self-compassion... However, if one hate oneself, then one will love the others.

I am not saying that one has to reach the point of been a masochist, that is not necessary. What I want to say you is that one has to recognize one own imperfections, one has to accept that is a mechanical creature, that one's life moves over the trucks of the habits; one has to recognize that is full of jealousy, rancour and horrible resentments.

When one accepts this, when one recognizes that one is a mere worm on the mud of earth, when one accepts that is a mechanical creature, when one hates oneself, then one has begun to forme the Conscious Center of Gravity within oneself.

Therefore, one passes from the Mechanical Center of Gravity to the Conscious Center of Gravity by means of the work on oneself which is the third force. It is worth to say you tonight that in our institution we will teach you how to work on yourselves, so you will be able to create on yourselves the Conscious Center of Gravity.

The day you become capable to form that center, you no longer be mechanical people, you will be conscious creatures, you will have already formed in yourselves the Conscious Psychological Moon.

Obviously, we need to do many creations within ourselves. Later on time, you will need to create something else, you will need to create the Psychological Sun within yourselves, obviously afterwards you will become Solar Men. However, it would not be possible to become Solar Men if beforehand you do not assimilate the Solar Intelligence within yourselves, in other words, if you do not create the Spiritual Sun, the Conscious Sun, the Christ-Sun.

Therefore, the beginning is the creation of the Psychological Moon before to be able to create the Psychological Sun. Much more later, it will be necessary the creation of the internal Psychological Galaxy within ourselves. After, it will be necessary the creation of this infinite within ourselves (this infinite which is known as "the Infinite of Einstein," has about 100.000 millions of galaxies, each one them with about 100.000 millions of Suns, etc., within the area reached by the telescopes -about 600.000 years light-), once this is attained, we will have reached the level of Gods.

If we think in the existence of many infinite, existence that can be demonstrated using trans-infinite mathematics, we can comprehend that the possibilities for ourselves, are also trans-infinite.

If in a board we draw the sign of the infinite and we add another one, the result is another infinite (infinite + infinite = infinite). This mathematic operation lets us express not just a theory but an axiom: the thesis of the many infinite... There is an infinite and much beyond it there are other infinite; the foundation of all of these infinite is the Absolute.

My dear brothers, the man that has fabricated his Psychological Moon, that is, his Conscious Center of Gravity, becomes independent from the lunar mechanical. There is a principle in Homeopathy which says: "Similian Similius Curando" (the same with the same is healed).

We could say, if the mechanical moon has transformed us in mere mechanical people, we can freed ourselves by means of creating a Psychological Moon within ourselves, that is, a Conscious Center of Gravity. In this manner we can emancipate ourselves from the lunar force which produces the high and low tides and helps as weight for nature's mechanic.

However, this is not all, he that possess a Conscious Center of Gravity because he has fabricated the Conscious Psychological Moon (which has allowed him to emancipate

himself from the lunar mechanical) obviously must create a Psychological Sun within himself.

When does he creates the Psychological Sun? When he fabricates the Superior Existential Bodies of the Being by means of the fulfilment of the Parlok Duty of the Being, that is to say, the Cosmic Duty of the Being which has three factors: To Die, or the destruction of the undesirable elements that we carry inside; To Be Born or Second Birth ("...Except a man be born of water and of the spirit, he cannot enter into the kingdom of God." -said Jesus the Great Kabir to Nicodemus- In order to enter in the kingdom is necessary the creation of the Existential Superior Bodies of the Being, that is to say, to be born from the water and fire); third, Sacrifice for Humanity. If we are egotists, if we do not work for the good of our fellow men, if we do not raise the torch in order to illuminate the path to others, we will not progress, the egotists even if he were to be very pietistic, will be unable to progress in these studies.

Brothers, the creation of the Psychological Sun within yourselves, has three factors that you already know: to dead, to be born and sacrifice for humanity.

When one assimilates the solar intelligence, the solar ideas, one becomes a Solar man. The Sun wanted and wants to create Solar Men; he has deposited in our sexual glands the germs for the solar man, these germs can get lost (which is normal); the Sun is making a very difficult experiment: to create Solar Men.

During the times of Abraham the Prophet, he attained many creations; during the first eight centuries of Christianity he attained the creation of some men; in the middle ages a few creations were attained; in these moments the Star King is fighting, is making a last effort before the destruction of this race.

When a humanity lost interest in the solar ideas, the Sun also lost interest in that humanity so he destroy it; afterwards he creates a new race for his experiment in the laboratory of nature.

Obviously, it would not be possible the creation of Solar Men if we do not cooperate with the Sun. We have the germs for the Man in our internal glands, but is necessary the Availability to the Man. If we cooperate and work according with the Gnostic ideas, then the Solar Man will surge in us.

This work is like the butterfly that grows within the chrysalis: when is ready, the insect surges and flies.. We are like the chrysalis, we have to forme the Solar Man within ourselves but in order to do so, is necessary, is fundamental the cooperation. When one cooperates, the Sun, the Psychological Man, the Solar Man is born within oneself.

The Sun wants a harvest of Solar Men, obviously is his right because he created this thin skin of organic life on the terrestrial layer (when a farmer sows, he has the right to a harvest).

The Sun has established over the crust of our world, an organic life, a very thin skin of organic life. We do not deny that this thin skin is a factory of pain, who could deny it? However, the Sun has the right to obtain a harvest of Solar Men, that is what he wants. He has the right to demand the payment, because he has worked; he who has worked need to be paid.

If we want the creation of the Psychological Moon, the Conscious Center of Gravity within ourselves, and afterwards, the Psychological Sun, we need the sacrifice because without it the creation of the Psychological Moon becomes impossible.

Therefore, we will speak a little bit about the sacrifice. For example, if we stop loving ourselves, there exists sacrifice; we have the strong tendency to love ourselves so much. Obviously, within ourselves there exists the "I" of the self-esteem.

In order to stop loving oneself, one has to learn to receive with pleasure the unpleasant manifestations of our fellow men. If one can do so, then one is capable to give birth a Conscious Center of Gravity; in doing so there exists sacrifice.

Are you capable to receive with pleasure the words of an insulter? Are you sure that you would smile before the one that has snapped your face? Let us be sincere with ourselves: we have to change and this can only be possible by means of sacrifices! To receive with pleasure the unpleasant manifestations of our fellow men means sacrifice, means to leave aside the self-consideration, the self-sentimentalism.

Certainly, one always protests against the hurting words and that is a mistake. The person that is hurting us, is bringing an extraordinary opportunity, is giving a psychological gymnasium in where is possible to learn to receive with pleasure the unpleasant manifestations of our fellow men.

What could we do if there would not be insulters? Where could we train? What could be the psychological gymnasium? Yes, we need to be insulted, hurt and even snapped; what really counts is to learn to receive with pleasure all the offenses, and if one discovers the "I" of anger, will be necessary to work on that "I," to comprehend it wholly, afterwards to beg to the Divine Mother Kundalini eliminate that "I" from ourselves. If one has the "I" of self-esteem, will be necessary to beg to the Divine Mother Kundalini to eliminate that "I" from ourselves, in this way we will not love ourselves any more.

Therefore, the insulters are useful. What could we say about jealousy? If one attains its disintegration (not just the passional jealousy, but the religious and political jealousy) then one has taken a great step forwards.

One has to become an enemy of oneself, of his self-considerations, of his self-praise, of his secret fears. One has to emancipate oneself from his jealousy, his pride, his vanity if in truth one wants the creation of the Conscious Center of Gravity within oneself. The men number 4 are those that have really attained all of this.

The man number 4 is ready for the creation of an Astral body and enter in the path of the man number 5.

The man number 5 lives in the Astral world absolutely conscious; he that possess an Astral body can travel with it through the space, can visit other planets, can stay in touch with the conscious circle of the solar humanity that operates over the superior centers of the Being.

The man number 5 is ready to become a man number 6 and he does so when he creates a Mental body, afterwards he is able to capture the entire wisdom of nature. The man number 6 becomes number 7 when he creates the Causal body, afterwards he can receive his psychic and spiritual principles and transform himself in a Solar Man, a true man.

For this reason I was saying to you that after the Psychological Moon has been created, it will be necessary to fabricate the Psychological Sun; however, all of this is attained through sacrifices.

How could a man that has fabricated the Psychological Sun, the Psychological Moon, a Solar Man be capable to become a Galactic Man if he does not descend? He must descend to the Ninth sphere, to the Forge of the Cyclops, to the infernos worlds so afterwards he can resurrect and ascend to the stars and become what is called a Galactic Man. He must create a galaxy within himself, and that is something possible to attain through the sacrifice and descending to the infernos worlds. A Galactic Man has the perfect right to travel from galaxy to galaxy, in other words, he can become part of an intergalactic crowd.

What could we say about the man that riches the Infinite State? About the man that has created the infinite within himself? In order to be capable to do so, he has to descend and suffer, he has to enter in the entrails of any world in order to know the Laws of Infinite and then to ascend again; in this form he creates an infinite within himself. Such a man, can travel from galaxy to galaxy, he deserves it. However, there even exist greater possibilities: it is possible to enter in the Future Infinite or in other infinite and to ascend grade by grade. However, every ascension is preceded by a descent.

Only through the sacrifice one can be transformed in something different; however, do not confuse a descent with a fall. Obviously, those that have not reached the high initiation, confuse easily a fall with a descent, this is obvious.

They are the members of the Movement that say: "Such a Master is fallen, that brother has fallen." They talk and they do not know, they do not understand the laws of alchemy, they have not studied the Apocalypse from a esoteric point of view ever, they do not know anything about the alchemist Genesis, they are the ones that calumniate the Masters.

Therefore, we have to be severe in the analysis and profound in the reflection, we have to comprehend the work that has to be done. We need to elevate ourselves little by little,

from grade to grade and to pass from the Mechanic Center of Gravity to the Conscious Center of Gravity, something attainable only, through the third force, the Gnostic Esoteric Work.

Here, we will give you the systems, the science, so you can become men number 4. We need you understand that they already possess a strong Conscious Gravity Center.
